

Key West Police Department

Love Fund

Established in 2006

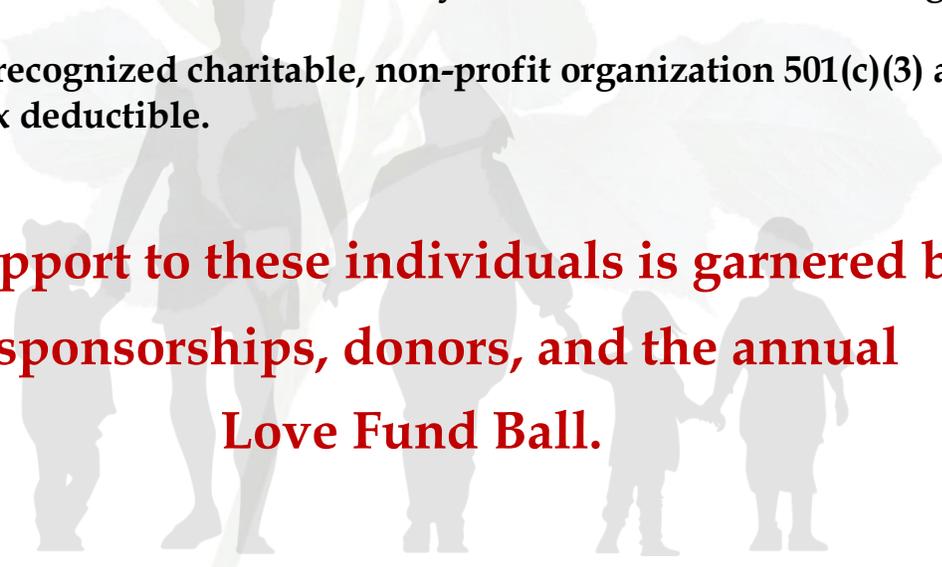

The Love Fund was established in 2006, to help officers and support personnel facing almost any catastrophe imaginable whether death in the family, illness, damage to their homes or other abnormalities that threatens their ability to serve their community.

The Love Fund also supports spouses and children of law enforcement officers killed in the line of duty or who die of natural causes as a result of extraordinary pressures created by the profession. This support includes scholarships for children of these officers.

The Love Fund fills a special need. It comes to the aid of Department members and their families when no other resources are available in times of extreme hardship.

Since its inception, the Love Fund has been able to help members battling cancer, loss of their homes due to storms, deaths in the family, as well as other life altering events.

The Love Fund is a recognized charitable, non-profit organization 501(c)(3) and qualified contributions are tax deductible.

**Support to these individuals is garnered by
sponsorships, donors, and the annual
Love Fund Ball.**
