ADDENDUM NO. 2
 TO THE CONTRACT DOCUMENTS
 for the construction of the
NAVY MOLE PIER ELECTRICAL DISTRIBUTION SYSTEM UPGRADES
CITY OF KEY WEST
KEY WEST, FLORIDA

Date: May 14, 2012
 Project No.: 436331

To All Planholders and/or Prospective Bidders:

The following changes, additions, and/or deletions are hereby made a part of the Contract Documents for the construction of the Navy Mole Pier Electrical Distribution System Upgrades dated May 2012 as fully and completely as if the same were fully set forth therein:

QUESTIONS AND RESPONSES

1. **Question:** What is the estimated cost of this project, we need info to obtain a Bid Bond.
Answer: \$1,300,000.00
2. **Question:** On sheet E-102 Key Note # 3 Inspect & repair buss between transformer and switchboard. More info is needed. Is there a picture or description on what is intended to repair buss, and how many busses?
Answer: This is for Substation #1 only. The middle phase heat shrink shows signs of overheating. Remove heat shrink and inspect bus connections. Torque bus connections per manufacturer's recommendation. Upon inspection, if connections are within specifications coordinate with Eaton for cause of heat shrink deformation. Notify Engineer of inspection findings and recommendations for corrective action. Replace heat shrink.
3. **Question:** In the specs it is stated that all salvage conductors are to be turned over to owner. Where will salvaged conductors to be taken and are salvaged conductors to be installed on reels or cut to manageable lengths?
Answer: Contractor is responsible for verifying the total length of 750 MCM cable to be salvaged and all salvage requirements.
4. **Question:** On sheet E-105, how many manholes does this feeder pass thru, it is not clear if it is 5 or 6?
Answer: Five (5) this was addressed in Addendum 1.
5. **Question:** On sheet E-104 Key Note # 1 splice at plug pigtail. What type of splice is required?
Answer: Compression and heat shrink insulation.
6. **Question:** Are cables to be fire wrapped in manholes?
Answer: Yes.

7. **Question:** I do have questions about the scope of testing required at the site. Will we be testing all equipment as mentioned in the spec 26 08 00 (switchboards, transformer, MV cables) or will we be required to test only those items that are being installed under this contract such as LV cable, CT's and the testing of the 56 relays?
Answer: All items mentioned in the specifications are to be tested.
8. **Question:** I have taken off the footage several times for the feeders from substations 1, 2, 3 & 4. I cannot get the footages to match the lengths given. There is a given footage of 22,000' of 750MCM & 4000' of # 2. There is 3 legs of 750MCM & 1 leg of # 2. These numbers don't work together, the 4000' should be 1/3 of the 750MCM and it is not. Not sure which number is incorrect. I scaled of approximately 5,500 of raceway which is considerably more than 4000' of # 2. Please advise.
Answer: Quantities listed in the Invitation to Bid and / or the Summary of Work is for information only and the Contractor is responsible for actual lengths.
9. **Question:** Working inside the Manhole require any permit or any special requirement other than OSHA requirements?
Answer: Manhole work safety shall follow criteria EM-385 and section 01 35 26.00 25.
10. **Question:** How many feet of cable are required for slack for feeder cables in Manholes for future adjustments?
Answer: Contractor to install cable along walls of manholes on racks from point of entry offset to point of exit offset. Contractor to keep center of manhole open and clear for working.
11. **Question:** How many feet of extra cable is required in Igloo's Vault, Switchboard's Vault and/or in Cubicles for future adjustments?
Answer: Five (5) ft in the Igloo and Switchboard vaults for Substation #'s 1, 2 and 3. Two (2) ft in cubicles on Pier 8. The slack provided in the adjacent manholes to the cubicles on Pier 8 will also provide slack for future adjustment.
12. **Question:** Is there any control cable between Switchgear and Igloos?
Answer: None for Substation #'s 1, 2 and 3.
13. **Question:** I understand that Contractor provide all cables, ct's and relays. Please confirm.
Answer: Correct
14. **Question:** Where are the Calibrated 9 Relays and what are the specs, are thy on drawings?
Answer: These will be determined in the field during construction.
15. **Question:** Is there any weight limit for heavy equipment on the Pier where cubicles are located?
Answer: Pier 8 is rated for vehicular traffic only. Crane or other heavy equipment will require NAVFAC authorization.
16. **Question:** If we need to provide temporary services to maintain continues operation of the Owner facilities, will that be a change order? Please clarify.
Answer: Temporary services requirements are not anticipated.
17. **Question:** Employees need a TWIC Card?
Answer: Response; TWIC card would only be needed on the MOLE WHEN a cruise ship is at dock and work was being performed at Substation #3. As we are not

- permitted to work on substation #3 during a cruise ship operation; TWIC is not required; Rapid Gate will suffice.
18. **Question:** Part 1, section 00 11 13, first paragraph states that bids will be received until 3 p.m. local time. Pre-Bid Meeting Agenda states bids are due at 3:30 p.m. Which is correct?
Answer: Section 00 11 13 changed in Addendum to 3:30 P.M. as stated in Pre-Bid Meeting.
19. **Question:** Is there a time limit on outage duration for the substations?
Answer: No, only Substation # 3 primary switch must be energized each night to provide power to the navigation lights and security system.
20. **Question:** Part 3, section 26 05 01-16, 3.02 A. states all salvaged conductor shall be turned over to the Owner. Has this requirement changed?
Answer: See Addendum #1. Contractor to provide salvage cost for 750 MCM cable. All other salvaged material is the Contractors.
21. **Question:** Scope of Work is calling for the replacement of eight (8) Safety Switch covers. While on walkthrough I noted that these safety switches are rated Class 1 Division 1 area safety switches. What amperage, voltage number of poles, fusible or nonfusible are these safety switched, and are they necessary to be Class 1 Division 1 beings no other equipment has this rating in the area would not NEMA 4X 316SS be sufficient?
Answer: The safety switches we are referring to are not the 240/120 convenience receptacles. The safety switch is the safety interlock switch on the 480 volt receptacle covers. This switch trips the breaker if the receptacle pins are hot when the cover is opened. This is covered in Addendum 2.
22. **Question:** Scope of Work calls for cable management system for manholes to be fiberglass. Is there be a detail or quantity and number of supports that will be required?
Answer: Three (3) brackets along the long walls and two (2) brackets along the short walls.

INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

- 1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.**
- 2. Identify the status of the covered Federal action.**
- 3. Identify the appropriate classification of this report. If this is a follow up report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by the reporting entity for this covered Federal action.**
- 4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.**
- 5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.**
- 6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.**
- 7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.**

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).
11. The certifying official shall sign and date the form, print his/her name, title and telephone number.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. and that I am the person responsible within my firm for the final decision as to the price(s) and amount of this Bid on this State Project.

I further declare that:

1. The prices(s) and amount of this bid have been arrived at independently, without consultation, communication or agreement, for the purpose of restricting competition with any other contractor, bidder or potential bidder.

2. Neither the price(s) nor the amount of this bid have been disclosed to any other firm or person who is a bidder or potential bidder on this project, and will not be so disclosed prior to the bid opening.

3. No attempt has been made or will be made to solicit, cause or induce any other firm or person to refrain from bidding on this project, or to submit a bid higher than the bid of this firm, or any intentionally high or non-competitive bid or other form of complementary bid.

4. The bid of my firm is made in good faith and not pursuant to any agreement or discussion with, or inducement from, any firm or person to submit a complementary bid.

5. My firm has not offered or entered into a subcontract or agreement regarding the purchase of materials or services from any firm or person, or offered, promised or paid cash or anything of value to any firm or person, whether in connection with this or any other project, in consideration for an agreement or promise by any firm or person to refrain from bidding or to submit a complementary bid on this project.

6. My firm has not accepted or been promised any subcontract or agreement regarding the sale of materials or services to any firm or person, and has not been promised or paid cash or anything of value by any firm or person, whether in connection with this or any other project, in consideration for my firm's submitting a complementary bid, or agreeing to do so, on this project.

7. I have made a diligent inquiry of all members, officers, employees, and agents of my firm with responsibilities relating to the preparation, approval or submission of my firm's bid on this project and have been advised by each of them that he or she has not participated in any communication, consultation, discussion, agreement, collusion, act or other conduct inconsistent with any of the statements and representations made in this Declaration.

8. As required by Section 337.165, Florida Statutes, the firm has fully informed the Department of Transportation in writing of all convictions of the firm, its affiliates (as defined in Section 337.165(l)(a), Florida Statutes), and all directors, officers, and employees of the firm and its affiliates for violation of state or federal antitrust laws with respect to a public contract or for violation of any state or federal law involving fraud, bribery, collusion, conspiracy or material misrepresentation with respect to a public contract. This includes disclosure of the names of current employees of the firm or affiliates who were convicted of contract crimes while in the employ of another company.

9. I certify that, except as noted below, neither my firm nor any person associated therewith in the capacity of owner, partner, director, officer, principal, investigator, project director, manager, auditor, and/or position involving the administration of Federal funds:
