# Welcome to the 2012-13 Academic Year

Hi! I'm Tania, an FKCC Student Ambassador here to welcome you to *your* community college! Whether you are on a path to a university or seeking career training to enter or advance in the workforce, FKCC is your headquarters for a **quality education—that's affordable, personal, and close to home.**

That's why I chose FKCC! I love that it's small; I feel comfortable and really part of a great community. My instructors know who I am and take pride in helping me and my classmates succeed. I know I can also find additional support for my studies from other FKCC "family members" in the Library and ISLE tutoring center, as well as academic and career advice from Student Affairs staff.

My favorite part about being a Student Ambassador is meeting prospective students and their families. I'd love to take you on a tour of our beautiful, waterfront Key West Campus and introduce you to our amazing faculty and staff. So, if you like what's in this schedule and want to experience FKCC in person, please call 305-809-3281 to schedule a visit.

Good luck, study hard, and have fun!

*Tania*

P.S. "Like" us on Facebook to follow what's going on at FKCC:  
[www.facebook.com/FloridaKeysCommunityCollege](http://www.facebook.com/FloridaKeysCommunityCollege)

### About Tania:

A graduate of Key West High School, Tania is earning an Associate in Arts degree. She plans to continue her studies beyond FKCC to reach her goals of earning a degree in sports medicine and becoming an athletic trainer. In addition to being a Student Ambassador, she is also a member of the Student Government Association.

## ACADEMIC CALENDAR 2012-2013

### Fall Term 2012

April 1, 2012  
June 21, 2012  
July 1, 2012

July 6, 2012

July 20, 2012  
August 1, 2012  
August 20, 2012  
August 27, 2012

September 3, 2012  
September 11, 2012  
October 25, 2012  
November 1, 2012

November 12, 2012  
November 21-25, 2012  
December 10, 2012  
December 12, 2012  
December 19, 2011-  
January 1, 2012

Registration begins  
VA certification start date  
Fees are assessed (tuition, lab fees and housing fees)  
Last day to submit an error-free FAFSA with all required documentation and official transcripts of prior college history to avoid having to pay tuition and fees upfront.  
Housing fees due  
Tuition and fees due  
Classes begin  
Last day to change courses for Term I; last day to withdraw and receive 100% refund.\*\*  
Labor Day (college closed)  
Fall Convocation (no classes)  
Last day to apply for graduation at the end of Term I.  
Last day to withdraw from class with a grade of "W." Last day to change registration status to audit.  
Veteran's Day (college closed)  
Thanksgiving Holiday (college closed)  
Classes end  
Final grades due, 12 noon  
Winter Break (college closed)

### Spring Term 2013

April 1, 2012  
November 5, 2012  
November 5, 2012  
November 9, 2012

December 5, 2012  
December 5, 2012  
January 4, 2013  
January 11, 2013

January 21, 2013  
February 15, 2013  
March 1, 2013  
March 19, 2013

March 25-31, 2013

April 29, 2013  
May 1, 2013  
May 3, 2013

Registration begins  
VA certification start date  
Fees are assessed (tuition, lab fees and housing fees)  
Last day to submit an error-free FAFSA with all required documentation and official transcripts of prior college history to avoid having to pay tuition and fees upfront.  
Housing fees due  
Tuition and fees due  
Classes begin  
Last day to change courses for Term II; last day to withdraw and receive 100% refund.\*\*  
Martin Luther King, Jr. Day (college closed)  
Presidents' Day (college closed)  
Last day to apply for graduation at the end of Term II.\*  
Last day to withdraw from class with a grade of "W." Last day to change registration status to audit.  
Spring Break (college closed). Students at the Middle and Upper Keys Center should check with their respective offices to verify the dates of their Spring Break.  
Classes end  
Final grades due, 12 noon  
Commencement

### DISCLAIMER

### Summer Term A 2013

**April 1, 2012**  
**March 7, 2013**  
**March 7, 2013**

Registration begins  
 VA certification start date  
 Fees are assessed (tuition, lab fees and housing fees)

**March 22, 2013**

Last day to submit an error-free FAFSA with all required documentation and official transcripts of prior college history to avoid having to pay tuition and fees upfront.

**April 3, 2013**  
**April 3, 2013**  
**May 6, 2013**  
**May 13, 2013**

Tuition and fees due  
 Housing fees due  
 Classes begin

Last day to change courses for Term IIIA; last day to withdraw and receive 100% refund; last day to add classes for Term IIIA.\*\*

**May 27, 2013**  
**May 31, 2013**  
**June 3, 2013**

Memorial Day (college closed)  
 Last day to apply for graduation for Term IIIA.  
 Last day to withdraw from classes with a grade of "W." Last day to change registration status to audit.

**June 16, 2013**  
**June 18, 2013**

Classes end  
 Final grades due, 12 noon

### Summer Term B 2013

**April 1, 2012**  
**March 7, 2013**  
**March 7, 2013**

Registration begins  
 VA certification start date  
 Fees are assessed (tuition, lab fees and housing fees)

**March 22, 2013**

Last day to submit an error-free FAFSA with all required documentation and official transcripts of prior college history to avoid having to pay tuition and fees upfront.

**April 3, 2013**  
**April 3, 2013**  
**June 17, 2013**  
**June 24, 2013**

Tuition and fees due  
 Housing fees due  
 Classes begin

Last day to change courses for Term IIIB; last day to withdraw and receive 100% refund; last day to add courses for Term IIIB.\*\*

**July 4, 2013**  
**July 5, 2013**  
**July 12, 2013**

Independence Day (college closed)  
 Last day to apply for graduation for Term IIIB.  
 Last day to withdraw from classes with a grade of "W." Last day to change registration status to audit.

**July 28, 2013**  
**July 30, 2013**

Classes end  
 Final grades due, 12 noon

### FKCC Mission Statement

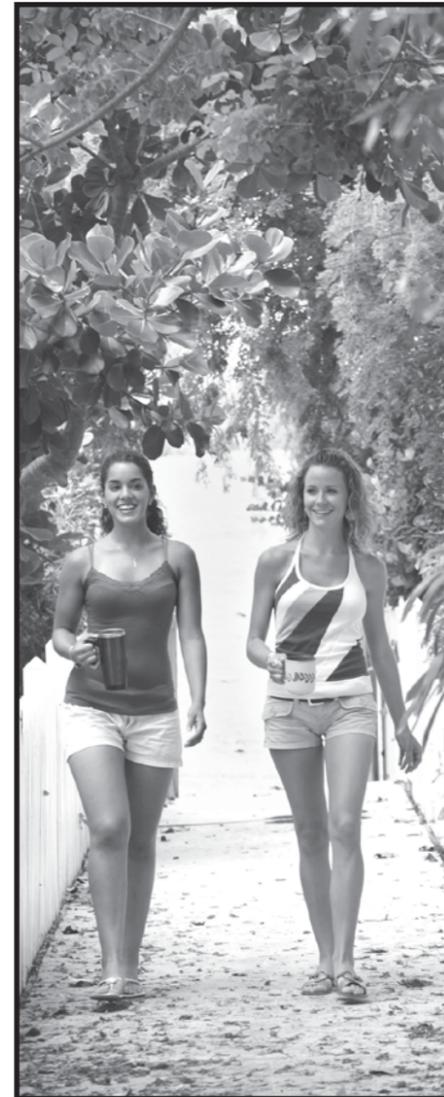

Florida Keys Community College is an open-access, educational institution dedicated to serving the intellectual, diverse, cultural, and occupational needs of the Florida Keys as well as the global community. The college is committed to student-centric academic programs and services, workforce development, continuing education, diverse partnerships, electronically delivered instruction, and sustainable practices that prepare students for personal success and responsible citizenship.

### Equity Statement

Florida Keys Community College is an equal access/equal opportunity institution. Discrimination/harassment on the basis of color, race, ethnicity, genetic information, sexual orientation, religion, gender, age, national origin, marital status or disability in admission to, or employment in, its education programs or activities is prohibited. Please report any form of discrimination/harassment immediately to the College's Equity Coordinator, Charles McGinnis, Office 1512, Human Resources, 5901 College Road, Key West Florida 33040, (305) 809-3248 or to the Office for Civil Rights of the U.S. Department of Education.

### Statement of Accreditation

Florida Keys Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award the associate degree. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Florida Keys Community College.

**April 1, 2012**  
**March 7, 2013**  
**March 7, 2013**

**March 22, 2013**

**April 3, 2013**  
**April 3, 2013**  
**May 6, 2013**  
**May 13, 2013**

**May 27, 2013**  
**July 2, 2013**

**July 4, 2013**  
**July 5, 2013**  
**July 28, 2013**  
**July 30, 2013**

*\*Students who will complete graduation requirements during the summer term may participate in the commencement ceremony in May. Application for graduation must be made by the Term II (February) deadline.*

*\*\*To receive a refund for college credit courses that do not follow the academic calendar, students must withdraw prior to the second class meeting. In the case of college credit courses that have four (4) or fewer meetings, the student must withdraw prior to the first class meeting in order to be eligible for a full refund.*

### Summer Term C 2013

Registration begins  
 VA certification start date  
 Fees are assessed (tuition, lab fees and housing fees)

Last day to submit an error-free FAFSA with all required documentation and official transcripts of prior college history to avoid having to pay tuition and fees upfront.

Tuition and fees due  
 Housing fees due  
 Classes begin

Last day to change courses for Term IIIC; last day to withdraw and receive 100% refund; last day to add courses for Term IIIC.\*\*

Memorial Day (college closed)  
 Last day to withdraw from classes with a grade of "W." Last day to change registration status to audit.

Independence Day (college closed)  
 Last day to apply for graduation for Term IIIC  
 Classes end  
 Final grades due, 12 noon

# DAN'S CAMPUS CAFE

## SATISFY YOUR HUNGER WITH HEALTHY AND DELICIOUS FOOD

Dan's Campus Cafe offers homemade soups, sandwiches, burgers, baked treats, breakfast items, cafe con leche, fresh fruit cups, and much more at affordable prices.

Catering available for business luncheons, private parties, buffets and more. Call 809-3272.

Located on the Key West Campus, Ron Saunders Student Center.

# Programs of Study

## Associate in Arts (university transfer)

Florida Keys Community College's **Associate in Arts (A.A.)** is designed for students who plan to transfer to a four-year institution to complete a bachelor's degree. Similar to being at a university, FKCC A.A. students spend two years focusing on general education courses, in preparation for two more years in a concentrated field of study at a university.

The A.A. degree requirements include:

- 36 credit hours of "general education" courses
- 24 credit hours of elective or "university transfer" courses

During their two years at FKCC, students are encouraged to develop and adopt a "Transfer Plan" with help from an academic advisor. Following a Transfer Plan basically means that a student chooses his/her elective courses based on the major that he/she intends to pursue a bachelor's degree in. Transfer plans can also be customized for a particular university.

Since FKCC is part of the Florida College System, all A.A. graduates are guaranteed certain rights under the statewide Articulation Agreement that governs the transfer of all Florida community college graduates to the state university system. However, guarantee of university admission does not guarantee admission to limited access programs, which may require a certain grade point average, test score, portfolio, and/or audition.

Popular Transfer Plans are listed below.

- Accounting
- Biology
- Business Administration and Management
- Criminal Justice
- General Transfer
- History
- Marine/Aquatic Biology
- Pre-Nursing
- Psychology

It is important that a student select appropriate courses in both the general education and university transfer categories. An FKCC advisor can assist with course selection, or students can use the FACTS.org online academic advising system. For more information or to schedule an appointment contact Advising Services on the Key West Campus at (305) 809-3196, at the Middle Keys Center at 305-809-3145, or at Upper Keys Center at 305-809-3146.

## Business

The business world is dynamic and constantly expanding; those holding a business degree or certificate are better prepared to succeed. In FKCC's **Associate in Science in Business Administration** program, students will master management, critical reasoning, computer, and communications skills that will be in demand throughout one's career. This program instructs students in a range of essential topics needed to succeed in business—whether in the private, public, or service sectors. Students will be prepared for entry-level jobs in management, marketing, personal selling, accounting, and financial services.

The **Certificate in Entrepreneurship** is designed to provide individuals with the skills and knowledge necessary identify innovative opportunities and to start and improve their own business. Students will develop a portfolio of assignments throughout the coursework that will culminate in a business plan presentation to community members. To prepare for this capstone event, students will first learn the fundamentals of the business environment. Subsequently, this knowledge will provide a foundation for students to create a marketing plan and pro forma financial statements. Additionally, students will gain a working knowledge of E-Commerce and related electronic business enhancement.

For more information contact Frank Wood, Business Administration Program Director at [frank.wood@fkcc.edu](mailto:frank.wood@fkcc.edu) or call 305-809-3287.

## Computer Science

Computer science is one of the fastest-growing industries and permeates all business sectors throughout the world. As technology constantly evolves, the demand for well-trained computer science professionals remains strong.

The **Associate in Science in Computer Information Technology** prepares students for jobs such as PC support specialist, help desk specialist, microcomputer specialist, network specialist, software specialist, and information systems specialist. This degree prepares students for CompTIA industry certification.

The **Associate in Science in Computer Programming and Analysis** prepares students for jobs such as computer programmer aide, junior programmer, senior programmer, data manager, programmer analyst, and mid-range computer specialist. Both technical and non-technical subjects are offered to broaden the individual's perspective and horizons in the field of computer science.

The **Computer Programmer Certificate** is designed to provide students with the skills to work under the leadership of a senior professional, providing support through the design, development, implementation and maintenance of a company's internally developed application services. Certificate courses may be applied to the AS in Computer Programming and Analysis.

For more information contact Dawn Ellis, Computer Science Program Director at [dawn.ellis@fkcc.edu](mailto:dawn.ellis@fkcc.edu) or call 305-809-3284.

## Marine Engineering, Management and Seamanship

In the Florida Keys, boating is a year-long business that is enjoyed by both locals and visitors. Boats provide access to our unique and beautiful offshore surroundings and are essential to a number of industries, including but not limited to tourism, diving, fishing, marine science, and transportation. Therefore skilled marine mechanics and qualified boat captains are constantly needed.

FKCC's Marine Engineering Department offers courses for individuals who wish to pursue careers in the marine industry, as well as the weekend boater. The **Associate in Science in Marine Engineering, Management, and Seamanship** is designed to prepare graduates to enter the professional mariner world by learning about vessels from the keel up. All phases of marine servicing instruction follow industry standards.

The department also offers a one-year vocational program to earn a **Marine Engineering (Propulsion) Certificate**. It is designed for students who want training in marine gasoline and diesel engines, fiber glassing, or welding without immediately pursuing an A.S. degree. However, the coursework in the certificate program can be applied to the A.S.

FKCC also offer captain's licensing for the professional mariner, including: Operator of an Uninspected Vessel (6 Pack), 100 ton Master Upgrade, Coastal Navigation, and Basic Seamanship.

### Other Optional Certifications:

USCG Captain's License  
FKCC Welding Certification

### Optional Factory Certifications (Offsite\*):

Bombardier/Evinrude Marine:  
Evinrude E-Tech Outboards  
Evinrude E-Tech V Models

\*Depending on Availability

For more information call the Department of Marine Engineering, Management and Seamanship at 305-809-3232 or email [mark.woods@fkcc.edu](mailto:mark.woods@fkcc.edu).

## Marine Environmental Technology

Our prestigious Marine Environmental Technology program is one of FKCC's most exciting, challenging, and attractive fields of study. The unique Keys environment provides students with a natural outdoor laboratory, which is representative of actual work environments in the field. This makes our program one-of-a-kind. We provide traditional theoretical classroom knowledge supported by a practical hands-on learning environment where the ocean is the laboratory.

Students will apply state-of-the-art marine environmental conservation and restoration technology while learning technician level scientific skills including marine data collection, analysis and writing technical reports. In addition, students will learn and develop a skill set, including but not limited to, seamanship and basic marine engine theory that will provide the most success in an ocean-oriented career.

For more information, contact Dr. Alex Brylske, Program Advisor of Marine Science & Technology, at 305/809-3148 or [alex.brylske@fkcc.edu](mailto:alex.brylske@fkcc.edu).

## Programs of Study continued

### Diving Business and Technology

FKCC's James E. Lockwood Jr. School of Diving and Underwater Technology is one of the premier underwater education centers in the country. Faculty members have a broad range of expertise from recreational and commercial diving to military and public safety fields. The school's superior facilities, located at "The Point" on the Key West Campus, include a 40-foot deep controlled lagoon environment, secure training platforms, a complete dive locker of basic, advanced and specialty equipment, low and high pressure air stations, and an Olympic-size pool. Divers also enjoy access to a living coral reef just seven miles off the coast of Key West.

The **Associate in Science in Diving Business and Technology** will prepare students to enter diving specialty areas such as recreational diving, work/commercial diving, public safety diving, research diving and hyperbaric dive medicine. Graduates may be qualified to work as instructors at destination resorts, dive technicians for research programs, divers for underwater construction and inspection firms, as well as operators of diving and hyperbaric facilities.

**Diving Certificates** are designed for those students who want training in diving technology without immediately pursuing the Associate in Science degree. These courses may also apply to the A.S. in Diving Business & Technology if a student later decides on that option. Students are encouraged to take the Fundamentals of Professional Diving course before choosing one of the following certificates to pursue: **Fundamentals of Professional Diving, Commercial/Work Diving, Professional Dive Instructor, Professional Research Diving, and Diving Medical Technician.**

A variety of industry certifications are available through agencies such as DAN and PADI. Also, as a member of the American Academy of Underwater Sciences, FKCC offers an FKCC/AAUS Scientific Diver Certification.

For more information, visit [fkcc.edu](http://fkcc.edu) or contact Dr. Patrick Rice, Dean of Marine Science and Technology at (305) 809-3228 or at [patrick.rice@fkcc.edu](mailto:patrick.rice@fkcc.edu).

### Institute for Public Safety

With the increasing growth in Florida's population, and the need to replace retiring officers, the job outlook for law enforcement is very favorable. Becoming a law enforcement officer is a challenging but deeply rewarding career. The fundamental duty of a law enforcement officer is to serve the community by safeguarding lives and property, protecting the innocent against deception, helping the weak against oppression or intimidation, and combating violence and crime. Ultimately law enforcement officers protect the constitutional rights of all to liberty, equality and justice.

FKCC's Institute for Public Safety offers Basic Recruit Academies in Basic Law Enforcement, Corrections, and cross-over training between the two disciplines. We also offer advanced and specialized training courses for commissioned officers. Coursework encompasses training in legal procedures, communications, vehicle operations, investigations, defensive tactics, first aid, traffic stops, firearms, patrol techniques and crowd control.

Students interested in pursuing a bachelor's degree in Criminal Justice are encouraged to pursue an A.A. by adhering to the Criminal Justice Studies "Transfer Plan." FKCC is articulated with St. Leo's University, so FKCC graduates can easily transfer into SLU's Criminal Justice Bachelor of Arts program.

For more information call the Institute for Public Safety at (305) 809-3200 or email [marc.halvorson@fkcc.edu](mailto:marc.halvorson@fkcc.edu).

### Nursing and Allied Health

The FKCC nursing program, approved by the Florida Board of Nursing, is designed to provide individuals with the intellectual and technical competence necessary to deliver quality care as registered nurses in the diverse healthcare delivery system of today's society. FKCC's instructional staff are dedicated to working collaboratively with students to promote achievement of individual academic success and enter the field of nursing as qualified clinicians.

The **Associate in Science Degree in Nursing** is awarded upon completion of the twenty-two month generic RN program. The FKCC nursing program graduate is then eligible to apply for the state licensing exam. Successful completion of the NCLEX-RN exam grants licensure for an individual to work within the established guidelines as defined by the scope of practice for a registered nurse. FKCC proudly boasts that 100% of the graduates of the last several nursing classes passed the NCLEX-RN.

#### Admission

The A.S. in Nursing is a limited access program with a selective admission process. The specific deadlines are determined each year and can be found posted on the Nursing Program page on the college's website at [www.fkcc.edu](http://www.fkcc.edu). Licensed Practical Nurses may challenge the first semester of nursing course work and enter the RN program in Fall or Spring based on eligibility and seat availability.

### Emergency Medical Technician

FKCC's **Emergency Medical Technician** program equips students with the skills, experience, and confidence to become a hero. In just one semester of study, students will have the foundation that will enable them to make critical split-second decisions during any basic medical or traumatic crisis. Students who successfully complete all requirements will earn an **Applied Technology Diploma** and will be eligible to take the certification examination to become an Emergency Medical Technician- Basic (EMT-B).

Students entering the program must have completed a First Responder for Medical Professionals (EMS 1059C) or be a Registered Nurse or physician. EMS 1059C is offered each Fall term at FKCC.

The EMT-B program is designed for both individuals who wish to pursue a career in EMS as well as professionals who currently work in emergency care, such as firefighters, law enforcement officers, volunteer rescue personnel, and lifeguards.

As an EMT-B, you may find employment in agencies such as city/county EMS systems, private ambulance services, hospitals, clinics, fire departments, air ambulance services, and hyperbaric chamber treatment centers. In the state of Florida, a licensed physician, dentist, or registered nurse may apply for certification as a paramedic and challenge the paramedic examination provided he/she holds an EMT certificate, which is current and in good standing.

For more information call the Department of Nursing and Allied Health at 305-809-3268 or email [carrie.groomesdavis@fkcc.edu](mailto:carrie.groomesdavis@fkcc.edu).

## Community Education and Testing Center (non-credit courses)

The Community Education and Testing Center offers a wide range of non-credit classes and seminars designed to help you fulfill your potential—both personally and professionally. You're invited to take up a new hobby, explore your artistic side, or get in better shape through FKCC's many recreational, leisure, and physical fitness opportunities. A variety of classes are also offered for professional growth to prepare, update, or refine employment skills.

Classes are scheduled on both weekdays and weekends. Additionally, you can learn conveniently from home through online courses. FKCC can also develop non-credit training programs to meet the specific needs of business, industry and/or government organizations, and may be held at any location in Monroe County.

We are also a designated test center for the following testing providers: Pearson Vue, Prometric, My Florida Ready to Work, and DSST.

The DSST credit by exam program gives students the opportunity to receive college credit for life experience as a form of prior learning assessment. Recommended for credit by the American Council on Education, the 38 exams are offered in diverse subject areas such as health, ethics, finance and technology. The DSST program is owned by Prometric, the global leader in testing and assessment, and has been placing students on the fast track to college degrees since 1986.

### Learn, Grow & Achieve

- **Recreational and leisure courses**
- **Workforce training courses and programs**
- **English for non-native speakers**
- **Testing Center: Pearson Vue, My Florida, Ready to Work, DSST, and more**

*New courses are offered each month.  
For current course offerings, visit our website at [www.fkcc.edu](http://www.fkcc.edu).*

## Steps to Becoming an FKCC Student

### 1. Transcripts

Request official college or high school transcripts be sent to FKCC's Office of Enrollment Services.

### 2. Placement Test

Florida Keys Community College primary placement test, the Postsecondary Education Readiness Test (PERT) is appropriate for those who have not taken the SAT or ACT, or whose SAT or ACT scores are more than two years old. PERT replaces the CPT. The purpose of PERT is to help provide information about your skills in the English language, reading, and mathematics. Your test results will be used in the academic advising process to ensure that you enroll in the appropriate levels of English (communication/humanities), reading, and mathematics courses.

You may need to take the PERT, if you are a degree-seeking student, a returning student who changes to degree-seeking status, or as well as a non-degree seeking student who wishes to enroll in English, reading, mathematics courses, or any course requiring college level English or math as a prerequisite.

Please call one of the three location for testing dates or check for dates on our website , [www.fkcc.edu](http://www.fkcc.edu).

### 3. Academic Planning and Course Selection

Whether you are pursuing a degree for university transfer, vocational interests, professional development, or simply taking courses for personal enrichment, FKCC Advising Services can assist you in selecting the best courses to meet your educational, professional and personal goals. Academic Advisors provide:

- Explanation of your placement test scores
- Review of degree requirements
- Scheduling of courses
- Career advisement
- Transfer advisement
- College Placement Test and New Student Orientation

### 4. New Student Orientation

First time in college students at Florida Keys Community College must attend this important session. During orientation the following will be covered:

- FKCC resources and services
- Degree programs
- Important college policies and procedures
- Financial aid/scholarship opportunities
- Registration information
- Website and email

If you have questions about the orientation or testing dates, please call:

Key West Campus Advising Services  
305-809-3196  
Middle Keys Center, Nancy Smith  
305/809-3145  
Upper Keys Center, Keri Dozier  
305/809-3146

Students may complete orientation online at [www.fkcc.edu](http://www.fkcc.edu).

### New Student Orientation

#### Fall 2012:

##### Key West Main Campus, Library

August 1, Wednesday 5:30pm-7:00 pm  
August 10, Friday 1:00 pm-3:00pm  
August 15, Wednesday 9:00am -12:00 pm

##### Marathon Middle Keys, Marathon Room

August 10, Friday 1:00 pm- 3:00pm

##### Coral Shores Upper Keys, Coral Shores Room

August 17, Friday 12:00- 1:00 pm

#### Spring 2013:

##### Key West Main Campus, Library

January 4, Friday, 2013 9:30am  
January 11, Friday, 2013 9:30am (KW)

##### Marathon Middle Keys, Marathon Room

January 11, Friday, 2013 12:00-1:00pm (MA)

##### Coral Shores Upper Keys, Coral Shores Room

January 4, Friday, 2013 2:00-1:00pm (CS)

# How to Apply for Admission to FKCC

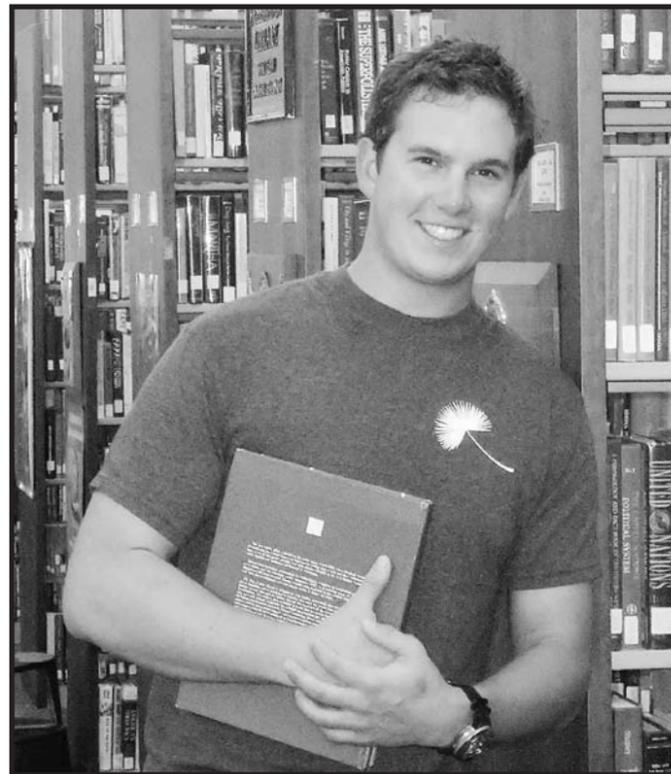

## Florida Residency

To qualify as a Florida resident for tuition purposes you must be a U.S. citizen, legal permanent resident alien, or hold a visa status approved by the Florida Legislature.

Living in or attending school in Florida does not, in itself, establish legal residence. Students who depend on out-of-state parents for support are presumed to be legal residents of the same state as their parents. A Florida "resident for tuition purposes" is a person who has, or a dependent person whose parent or guardian has, established and maintained legal residence in Florida for at least twelve consecutive months immediately preceding their enrollment. Residence in Florida must be for the purpose of establishing a permanent home and not merely incidental to enrollment at an institution of higher education. Other persons not meeting the twelve-month legal residency requirement may be classified as Florida residents for tuition purposes only if they fall within one of the limited special categories authorized by the Florida Legislature and Board of Regents. Florida Keys Community College will award Florida residency status for in-state tuition in accordance with state laws, rules and guidelines.

The following guidelines summarize FKCC's procedure for compliance.

1. A student's residency classification is determined at the time of admission. A non-resident may request reclassification after establishing residency in Florida as determined by the law.
2. The law allows a United States citizen or eligible non-US citizen to be classified as a Florida resident if the student, or dependent student's parent or legal guardian, has been a legal resident of the state of Florida for at least 12 consecutive months immediately preceding the first day of classes for the term in which classification as a Florida resident for tuition purposes is desired.
3. Living in Florida, attending school in Florida, or property ownership in Florida does not, in and of itself, establish residency for tuition purposes.
4. All students must complete the Florida Residency for Tuition Purposes Affidavit. It must be signed by the person claiming residency.
5. The affidavit form and all supporting documentation must be filed no later than the last day of Add/Drop for the term which classification or reclassification is sought.
6. The affidavit will not be accepted until it is completed in its entirety and all documents are attached.

## Required Documentation

1. At least two pieces of State of Florida approved supporting documentation are required with dates that evidence the 12 month qualifying period.
2. Proof of U.S. citizenship: Persons who were born outside of the United States but are claiming U.S. citizenship must provide proof of citizenship or naturalization.
3. STUDENT UNDER THE AGE OF 24 is assumed to be a dependent:  
Parent or legal guardian must complete the affidavit and provide appropriate documentation.
4. STUDENT UNDER THE AGE OF 24 who claims to be an independent:  
Student must sign the affidavit and provide documents supporting residency AND independent status.  
A copy of student and/or parent's tax return may be required to document independent status.
5. STUDENT 24 YEARS OF AGE OR OLDER WHO CLAIMS TO BE DEPENDENT:  
Copy of parents tax return from previous year must be provided to document dependent status.  
Parent or legal guardian must complete the affidavit and provide appropriate documentation.

## Dependent vs. Independent

**Dependent Student:** any person, whether or not living with his or her parent, who is eligible to be claimed by his or her parent as a dependent under the federal income tax code.

**Independent Student:** any person who submits documentation that he or she provides fifty (50) percent or more of the cost of attendance for independent, in-state students as defined by the financial aid office at the institution (exclusive of federal, state and institutional aid or scholarships).

# Library/Learning Resource Center

The FKCC Library/ Learning Resource Center is located on the Key West campus on the second floor of the Administration building (A). The reading room overlooks the beautiful bay and offers a breathtaking sunset view. Access to electronic resources is available online for distance learning students. Limited print resources are also available at the Middle and Upper Keys Centers.

## Membership & Library Cards

Library cards are available to all FKCC students, faculty, staff, and Monroe County residents. Distance Learning students or students not in the area may go to the library's website to apply online for an e-card. Their borrower id number will be emailed to them for immediate use of our electronic resources. Library users must present their valid library card to check out materials. The barcode on the card is your borrower id number and your pin is the last four digits of your social security number. They are used to access our eResources available 24/7 on our website. FKCC library card holders can also check out materials at the Monroe County Public Libraries in Key West, Big Pine, Marathon, Islamorada, and Key Largo locations.

## Collections

The library has a variety of informational and recreational materials including books, eBooks, audio books, reference books, journals and periodicals, full text databases, music CD's, videos, DVD's, and video games. Please go to <http://library.fkcc.edu> to search the online library catalog, LINCCWeb.

## Fees

The library charges \$0.05 per day per overdue item with a maximum of \$5. Items not returned are charged the cost of replacement, plus a \$10 processing fee.

Books may be checked out for three weeks, and audiovisual items are due back in one week. All items may be renewed in person, by phone or email, or by logging into "my account" in LINCCWeb.

The replacement fee for lost library cards is \$1.00 and faxes cost \$1.50 per page.

## Books from Other Libraries

We can obtain materials not found in the FKCC Library. This process may take up to a week, so please plan ahead. Requests can be made from our online catalog, by filling out the electronic form on our website, in person, or by email. Contact our ILL Specialist for assistance. Customers will be notified when the item is received. They may be picked up at the front desk in Key West, or the items can be sent via courier to our Marathon or Coral Shores Center.

## ASK a Librarian

"ASK a Librarian" is a statewide service that provides live online assistance from a librarian. The service provides all Florida citizens with live virtual reference services via computer or mobile device. It is available by clicking the "ASK a Librarian" logo on the library webpage or on the Distance Learning Platform. For quick answers, patrons can send a text to 305-705-6994 fkc and receive a quick response.

## Copyright

The library provides research assistance and training on copyright policy. Resources are available in the copyright section of our website.

## Research Assistance

Research assistance is available from one of our highly qualified librarians. This service is provided in person, via email, phone, or text. Library customers can also set up an appointment with a librarian for individualized help.

## Computers

The library has two computer labs. The computers are available for student, faculty and community borrowers. Community borrowers are charged a monthly fee of \$25; 2 months for \$40; or \$5 per day. Printing in the library is available through our WEPA Kiosks at \$0.15 per sheet for black and white and \$0.65 per sheet for color copies. Copy cards can be purchased for \$5 each or credit cards can be used to deposit funds to accounts. A surcharge of \$0.20 per transaction may be charged if using a credit card at the Kiosks instead of adding the funds to accounts. Priority is given to our student and faculty, but open access is available to all customers on Fridays from 9am to 11 am. Customers must observe the library and FKCC policies; and local, state, and federal laws regarding copyright and computer usage.

## Programs & Events

The library also serves as an art gallery exhibiting the artwork of talented students, faculty, and local artists. The library provides further educational and cultural opportunities by hosting book discussions, workshops, forums, and movies. Visit our calendar of events located on our website for upcoming programs and events.

## Study Rooms

The library has two study rooms available for academic purposes. Rooms may be reserved by notifying the circulation desk. Students must agree to abide by the library's facility use policy.

# Virtual Campus

## Online, Hybrid, and Technology-Enhanced Courses

The term "Virtual Campus" at FKCC refers to the college's method of instruction delivered through technology. Courses offered through the Virtual Campus are offered in a way that the student and the instructor do not always need to be in the same place and/or at the same time in order for teaching and learning to occur.

The FKCC Virtual Campus offers completely online courses, courses that are taught both online and traditional, and courses which meet in a traditional schedule but use online resources.

### Virtual Campus Course Listings

You can browse Virtual Campus courses offered in this course schedule beginning on page 24 or online at [https://star5a.fkcc.edu/prod/bwckschd.p\\_disp\\_dyn\\_sched](https://star5a.fkcc.edu/prod/bwckschd.p_disp_dyn_sched) and choose Virtual Campus for your campus choice.

### Types of Virtual Courses

"Online" courses can be taken with few or no campus visits and use one or many different types of technology for remote delivery of course materials. At least 80% of the instruction is completed with the student separated from the instructor by either location, time or both.

"Hybrid" courses are a combination of web-based and face-to-face classroom instruction. A range of 50% to 79% of the course is completed online. These courses have a definite on-campus meeting schedule, in addition to online activities.

"Technology-Enhanced" courses meet in a traditional classroom setting but have resources, activities and assessments available online.

### Are you ready for Online Learning?

Taking an online class requires advanced study habits, learning styles, technical skills and motivation to succeed that some traditional classes may not. Before you register for an online course, you must make sure online learning is right for you.

If you have never taken an online course but are interested, login into your D2L account, look under "My FKCC Courses" and work through the D2L Student Orientation. This overview will help you decide if this type of learning format is for you.

### About Online Learning

Complete information concerning online learning at FKCC can be found on the college website under "Virtual Campus." If you have decided that online learning is right for you and have registered for an "Online", "Hybrid" or "Technology Enhanced" course at FKCC,

part (or all) of your course will take place online using the college's online learning management system, Desire2Learn (D2L). Once you have registered, been enrolled in the class (can take up to 48 hours) you will be able to log in to D2L anytime and anywhere at <http://online.fkcc.edu>, the Desire2Learn homepage. Your `firstname.lastname` is your login and the last four digits of your social security number is your password. It is recommended to bookmark the above website or save it to your internet browser's favorites once you've accessed the site to easily return to it.

Please note that it takes up to 48 hours from the time a student registers in any D2L course for the student to gain access to Desire2Learn. The student may access the site anytime after registering for class at FKCC. The class will not be available until the start date of the class.

### D2L Student Orientation

For an online student orientation to D2L, log into Desire2Learn, and click on the link "D2L Student Orientation" under "My FKCC Courses."

This orientation is also available in the content area of your course in D2L. Please keep in mind that you may need to complete this orientation before your course content will appear. If you've already taken the orientation, you do not need to take it again. Simply click on the link of the orientation in the content area of your course and your course content will appear once you return to the content area.

### Computer System Requirements

Students must have access to a computer and an Internet service provider to access courses in order to interact with the instructor and classmates. The teacher is still, and will always be, the most important resource in the virtual classroom. The Internet is simply another tool that a teacher can use to improve and enhance instruction. To access the latest list of hardware and software requirements for online learning at FKCC, go to the FKCC homepage, <http://www.fkcc.edu> and access the Distance Learning listing on the left side of the screen. This will give you the information you need.

### Online Learning Technical Support

Technical support for anyone using Desire2Learn is available through the Office of Distance Learning, Monday through Friday 8:30 a.m. to 4:30 p.m. You may contact D2L Technical Support at 305-809-3177 or email at [d2lhelp@fkcc.edu](mailto:d2lhelp@fkcc.edu).

## Afraid of Math?

# Don't be. You're on Island TIME.

Be successful in developmental math courses with Island TIME: Transition Into Math Excellence. Students benefit from a personalized learning experience that combines face-to-face instruction with easy-to-use technology. The goals of FKCC's new program are to ensure students successfully complete developmental math courses, and are prepared and confident for the next step toward a bright future!

### Student-Centered:

Students receive personalized attention from their instructor, as well as the helpful staff at the Student Success Center, which is open evenings and weekends to accommodate busy student schedules.

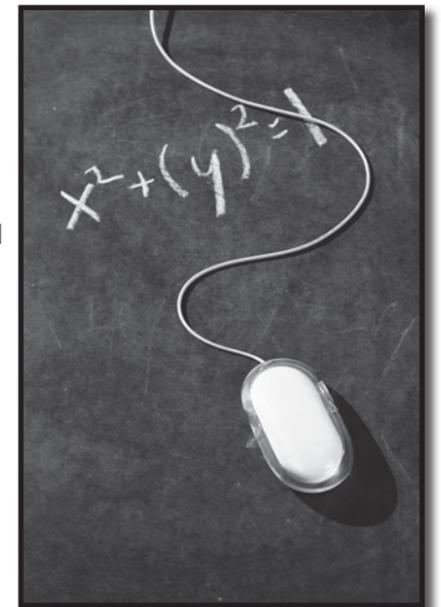

### Self-Paced:

Students are able to progress at their own pace. If you're doing well, then speed through the modules. You can even complete Developmental Math I and II in the same term!

If you're struggling, r-e-l-a-x. You can get extra help and take the time you need—even beyond the semester.

### Technology-Assisted:

Traditional classroom time is enhanced with MyMathLab, which connects virtually with the textbook, and includes interactive exercises, multimedia learning aids, and personalized study plans.

## Student Success Center

Island TIME classes are located in the new, state-of-the-art Student Success Center. Students attend class in one portion of the SSC, and then complete homework and testing at individual computer stations in the adjoining computer lab. The center is fully staffed with math tutors and lab assistants and is open on evenings and weekends to accommodate busy student schedules.

The SSC is located in TWFAC 2402 and 2403, above the ceramics lab. Just follow the green arrows.

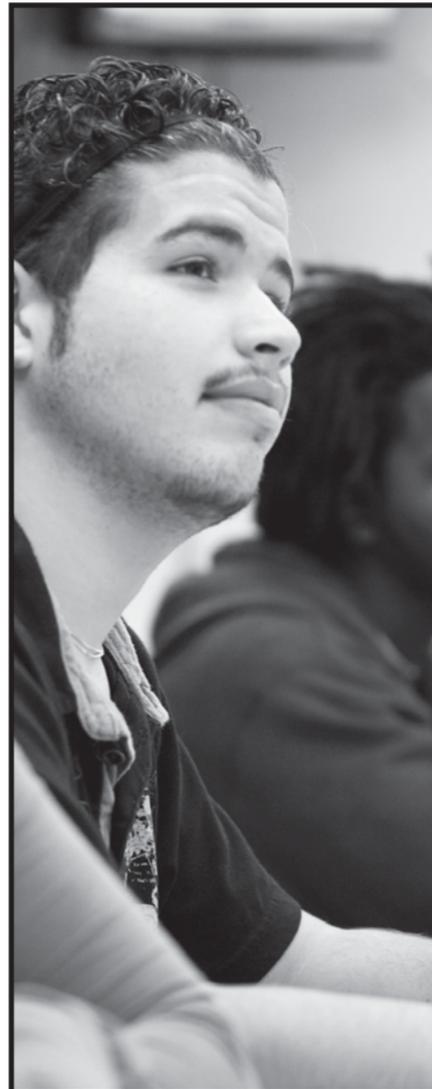

## INTERACTIVE STUDENT LEARNING ENVIRONMENT

The Interactive Student Learning Environment (ISLE), located on the Key West Campus in room B206, provides additional support service and resources to help students be successful. The "ISLE" offers a quiet, relaxed atmosphere where students

can receive assistance, do homework or study.

The "ISLE" is staffed by FKCC faculty, staff, and PTK tutors. Students can expect personal attention, access to workshops, and hands-on tutoring.

Students can practice power point presentations, rehearse speeches, and edit essays. Computer assistance is available, as well as help using the free online tutoring service, "Smart Thinking." This program allows students to connect with online "Smart Thinking" tutors 24 hours a day when ISLE tutors are not available. Tutors can assist students with a variety of disciplines, including English and math.

## FKCC's Information Portal

Access your FKCC Email and More!

MyFKCC is a secure website where students can access all online services from one convenient location. Through the myFKCC, you are able to:

- Communicate with instructors and classmates via email
- Register for classes
- Check courses
- Check status or apply for financial aid
- Order from the bookstore
- Check grades
- Access online learning (D2L) classes

### Access the myFKCC through FKCC's Website

The secure access login user name (typically FirstName.LastName) can be obtained by navigating to <http://my.fkcc.edu> and using the "myFKCC Username Lookup" tool (see picture below). The password for first-time users is your 6 digit birth date: - mmddyy example: December 31, 1993=123193. First-time users are also required to change the default password immediately upon login, and set up security questions and answers. This will allow password resets when needed.

Once you have your logon credentials, you may go to <http://my.fkcc.edu> to login into myFKCC.

### FKCC E-mail Policy

E-mail is considered the official method for communicating with FKCC students, faculty and staff. The college expects that e-mail communications will be received and read in a timely fashion. This policy establishes the college's expectations that faculty and staff will routinely communicate important information to students using the established FKCC mail system.

All students enrolled at FKCC are provided an official FKCC student e-mail account - FirstName.LastName@fkcc.edu. Students are expected to check their FKCC e-mail account on a frequent basis in order to remain informed of course-related communications. It is recommended that students check e-mail accounts daily. Students are responsible for the consequences of not reading course-related e-mail communications in a timely fashion.

All use of e-mail will be consistent with other FKCC policies, as previously stated, and as stated in the FKCC Student Handbook.

If students need any assistance please the IT Help Desk at (305) 809-3135.

# Swimming & Recreation

## Fun for the whole Family

**FKCC Pool**  
**Key West Campus**  
**Mon.-Thurs. 6:30a.m.-7:00p.m.**  
**Fri. 6:30a.m.-6:00p.m.**  
**Sat. 12:00p.m.-4:00p.m.**  
**305-809-3562**  
**www.fkcc.edu/pool**

### Pool Pass

Improve swimming strokes and get in shape with a coach.

Mon.-Thurs. 6:30a.m.-7:30a.m. 5:30pm-6:30pm

**Lap Swim:** available anytime the pool is open.

**Family Swim:** Mon.-Thurs. 10:00a.m.-3:30p.m.,

Fri. 10:00a.m.-6:00p.m. and Sat. 1:00p.m.-4:00p.m.

Cost: \$5 per day/ \$50 per month/ \$140 per semester

### Bone Island Swim Club

Ages 4 and older

Learn the four competitive strokes while getting fit and having fun. The club is divided into different categories based on age and ability. Swim meets are held once a month in Key West and swimmers have an opportunity to travel. Swimmers must be able to swim four lengths of the pool using front crawl with rotary breathing and back stroke. Register at the pool.

Mon.-Thurs. 3:45p.m.-4:45p.m. or 4:30p.m.-5:30p.m.

Cost: one time \$60 registration fee per year and then \$60 per month or \$160 for 4 months

### Blue Ribbon and Advance Blue Ribbon

Classes meet twice a week for the month. Must pre-register at the pool. See schedule at pool for start dates.

#### Beginning group

Swimmers need to be able to swim 10 yards and take breaths

Mon. & Wed. or Tues. & Thurs. 3:30p.m.-4:00p.m., 4:30p.m.-5:00p.m., 6:00p.m.-6:30p.m.

Cost: \$50 per month

#### Advanced group

Swimmers need to be able to swim 25 yards with rotary breathing

Tues. & Thurs. 4:30p.m.-5:15p.m.

Cost: \$50 per month

### Aqua Fitness

Get fit and relieve stress through resistance training in the water. This class is for all ages, abilities and needs.

Mon.-Thurs. 9:00a.m.-10:00a.m. & 5:30p.m.-6:30p.m.

Sat. 12:00p.m.-1:00p.m.

Instructors: Mimi McDonald, Greta Phillips-Ford, Carol Woodward and Lori Bosco.

Cost: \$7 per day, \$60 per month, \$160 for 4 months

### American Red Cross Swim Lessons

(Must pre-register for classes)

#### Parent and Tot classes for 6 months to 2 years

**March 26-August 8**

Mon. & Wed.: 5:00p.m.-5:30p.m.

Cost: \$5 per day or \$40 for 10 classes

#### Private lessons for 2 years and older

**March –November:**

Mon. – Thurs. 3:00pm – 4:pm & 6:00pm-6:45pm

Additional times available May - August See current schedule at the pool

Cost: \$60 for 6-15 minute classes

#### Group Lessons for ages 3-10 years old

Lessons are offered monthly. Students receive up to 8 lessons of instruction. Pre-register at the pool.

Classes held monthly March – November. See schedule at pool for starting dates.

Mon. & Wed. 4:00pm-4:30pm, 5:30p.m.-6:00p.m or

6:30p.m.-7:00p.m.,

Tues. & Thurs. 3:30p.m.-4:00p.m., 5:30p.m.-6:00p.m. or

6:30p.m.-7:00p.m.

**Adult swim lessons:** Mon. & Wed. 6:30p.m.-7:00p.m.

Cost: \$50 for 8 lessons

### Lifeguard Training

Gain the valuable knowledge and skills to become a lifeguard which could lead to employment.

Certifications include: CPR for the Professional Rescuer, First Aid and Lifeguarding.

Offered in March, April, July, and September (25 hour course)

Cost: \$225 (includes books)

### Summer Camps

#### Summer Fit Camp for ages 7-11

Week long program is designed to keep children fit and active throughout the summer and will include: Snorkeling, tennis, water safety, swimming, games and indoor fitness.

Participants must pre-register at the pool.

Camp is limited to 25 participants per session.

Cost: \$175 per week, \$325 for 2 children, \$390 for 3 children.

Times: 8:30am-4:30pm

Dates: June 11-June 15, June 18-June 22, June 25-June 29,

July 9-July 13, July 16-July 20, July 23- July 27, July 30-Aug 3

#### Jr. Lifeguard Camp for ages 11-14

A 2-week program to learn first aid, CPR through the Jr. Lifeguarding program. Will also focus on fitness activities: kayaking, swimming and snorkeling

Times: 9:00am – 2pm.

Cost: \$225 for 2 week session.

June 18- June 29 and July 16-July 27

### Special Events

#### Check at the pool for dates

**Sprint Triathlon and Biathlon:** (600 yd swim, 10 mile bike, 5K run) held March and September

**Adventure Race:** (5K run, 10 mile bike, 1.5 mile kayak or paddleboard) held in May

**FKCC Swim Around Key West** (12.5 open water swim)-held in June

**USA Sanctioned swim Meets:** held in June and September

**Open Water Swims:** (800 yard swim, 1 mile and 2 mile race)- held in June and September

### Fitness Opportunities

In the Public Safety Building at FKCC (next to the pool)

#### Boot Camp

A military regime style workout

Tues. & Thurs. 6:00p.m.-7:00p.m.

Instructor: TBA

Cost: \$120 for 15 weeks, \$40 per month or \$7 a day

#### Tennis

Beginning and Intermediate Classes

Tues. or Thurs. 6:00p.m.-8:00p.m.

Instructor: Hector Carcedo

Cost: \$120 for 15 weeks, \$7 a day

**Exercise-A-La-Carte** A program for the busy schedule, you can choose from boot camp, tennis, yoga, aqua fitness, or lap swimming to make your own schedule.

Cost: \$220 for semester or \$70 per month

### Kindermusik

Parents interact with their child through music and games. A program for children newborn to 5 years of age.

See schedule at the pool.

Instructor: Jeanne Olsen

Cost: \$150 per semester

## Tuition, Fees and Payment Options

### Three Ways to Pay Without Waiting In Line

- 1. Pay online with a credit card** (Visa, American Express, and MasterCard accepted) at [www.fkcc.edu](http://www.fkcc.edu)
  - Go to **My FKCC** link on the FKCC home page
  - Sign In
  - Click on **My FKCC Self Service**, then **Charges and Payments**
  - Click on **Account Summary by Term**
  - Scroll to bottom of page and click **Pay Term Charges**
- 2. Pay over the phone** by calling the main campus, Key West Business Office at **(305) 809-3186**.
- 3. Pay with a check or money order by mailing your payment** to FKCC, Business Office, 5901 College Road, Key West, Florida, 33040. Make sure it is mailed in time to arrive by your fee deadline. Please include your student ID number on the check. Please do not mail cash.

### Automatic Monthly Payment Plan Available Convenient, Affordable, & Interest Free

#### Payment Methods

- Automatic bank payments (ACH)
- Credit card/Debit card

Payments are processed each month and will continue until the balance is paid in full. If a credit/debit card is used, a convenience fee in addition to the enrollment fee will be assessed.

1. Login into online services with your student ID or SS#
2. Select Charges and Payments
3. Select eCashier Tuition Installment Plan
4. Follow the online instructions

#### Fall 2012

First Date e-Cashier is available: 04/1/2012  
Last Date e-Cashier is Available: 08/16/2012

#### Spring 2013

First Date e-Cashier is available: 10/15/2012  
Last Date e-Cashier is Available: 01/3/2013

#### Summer 2013

First Date e-Cashier is available: 04/1/2013  
Last Date e-Cashier is Available: 05/3/2013

## Financial Aid

Your gateway to a variety of financial aid opportunities is completion of a FAFSA, the Free Application for Federal Student Aid. Students may be eligible for grants, loans, scholarships, and work study programs. If you plan to take classes at FKCC, you will need to complete the 2012-13 FAFSA.

### The application is a 3 step process:

- 1) Apply for a PIN at [www.fafsa.ed.gov](http://www.fafsa.ed.gov). This step will require you and your parents (if you are under age 24) to enter identification information such as social security number and date of birth. The Federal government reviews this data and will return a PIN to you in 2 to 3 business days via email.
- 2) Complete the 2012-13 FAFSA and enter FKCC's Federal code **001485**.
- 3) You and your parents (if you are under the age of 24) will need to sign it electronically.

Completed FAFSAs are submitted directly to the Federal processing agency and transmitted electronically to the college within a few business days. If your application is rejected, we will notify you in writing.

If your application is selected for "verification," you will receive a letter in the mail requesting:

Type of Student	Required Forms

### Federal Direct Loans

Students requesting Federal Direct Loans are required to complete Entrance Counseling, sign their Master Promissory Note, and fill out the Federal Direct Loan Request Statement for Students and submit it to [LoanApplication@fkcc.edu](mailto:LoanApplication@fkcc.edu). Please visit our website at <http://www.fkcc.edu/current-students/loans.da> for application information.

### Scholarships

FKCC offers several institutional scholarships. For a complete list of scholarships, go to <http://www.fkcc.edu/current-students/scholarships.da>

### Contact us:

If you would like to speak with a Financial Aid Specialist, you may call us at 305-809-3523 or email [FinancialAid@FKCC.edu](mailto:FinancialAid@FKCC.edu).

# SCHOLARSHIPS

for

**Florida Keys Community College Students**

The **FKCC Foundation** was established to support Florida Keys Community College's students, programs and services by providing scholarships to FKCC students through the support of private donors and public agencies. A variety of scholarship opportunities are currently being offered to students.

**There is money available to help you afford your education.**

### APPLY ONLINE TODAY!

Criteria for awards differ for each scholarship. Criteria may be based on financial need, grade point average, essay submission, leadership, and/or character.

Applicants must have completed the FAFSA (Free Application for Federal Student Aid) and must upload their most recent high school or college transcript into their application packet.

- **Full Time Degree Seeking, FLORIDA HIGH SCHOOL SENIORS** – 60-credit-hour tuition awards for Florida high school graduates choosing FKCC to complete their degrees
- **First Generation in College** – awards for students whose parents did not complete a baccalaureate degree; must be a Florida resident
- **Student Ambassador** – represent the FKCC student body by providing campus tours, welcoming prospective students and visitors, and providing orientation support, etc.
- **Nursing** – scholarships for individuals accepted into FKCC's outstanding nursing program
- **Business/Vocational/Marine Science/Literary/Criminal Justice** - scholarships for students with declared majors in specific disciplines
- **General** – awards toward tuition and fees for general studies

### HOW TO APPLY:

Go to [www.FKCC.edu](http://www.FKCC.edu). Look under the "Future Students" or "Current Students" pull down menu and click on "Scholarships". Scholarship opportunities, qualifications and deadlines vary. Click on the link to view current listings. must apply ONLINE and use their "myFKCC" credentials to login and complete an application. Students are encouraged to apply for as many scholarships for which they are eligible.

For further information contact:  
Patti Carey, Exec Director, FKCC Foundation  
[Patti.carey@fkcc.edu](mailto:Patti.carey@fkcc.edu) or (305) 809-3299

# Institute for Public Safety

## Basic Law Enforcement Academies

**Key West Campus** Part Time/Night Time January 2013- November 2013  
Mon-Fri 6:15p.m.-10:30p.m.

**Upper Keys Center** Part Time/Night Time August 2012- June 2013  
Mon-Fri 6:15p.m.-10:30p.m.

FKCC's Basic Law Enforcement Academy satisfies the 770-hour training requirements of the Florida Department of Law Enforcement and the Criminal Justice Standards and Training Commission. Upon passing the state certification exam, graduates will become Florida Law Enforcement Officers.

Program coursework surveys the criminal justice system and provides training in basic law and legal procedures, communications, vehicle operations, investigations, defensive tactics, first aid, traffic stops, firearms, patrol techniques and crowd control.

**QUALIFICATIONS:** Applicants must be at least 19 years of age, a United States Citizen, a high school graduate or equivalent, have a Florida's drivers license and a responsible driving record, must not have been convicted of a misdemeanor involving perjury, false statement or a felony, have not received a dishonorable discharge from any of the Armed Forces of the United States, be able to pass a Florida Department of Law Enforcement record check and medical examination, be able to pass a background investigation and pass the Criminal Justice Basic Abilities Test (CJBAT).

# Course Descriptions

## Accounting

### Financial Accounting ACG 2021

Major topics covered in ACG 2021 are as follows: Basic structure of accounting, accounting for merchandising enterprises, accounting systems, accounting principles, partnerships, and corporations.

### Managerial Accounting ACG 2071

Managerial accounting examines the nature of costs associated with the manufacturing industry. Topics covered in class include managerial accounting, managerial principles and systems, planning and cost control, and decision making analysis.

## Anthropology

### Native American Cultures ANT 2310

This course is an investigation of the cultures of pre-historic, historic and contemporary Native Americans. Topics include critiques of representative ethnographies from each culture area and language family.

### Survey of Florida Prehistory ANT 1159

This course surveys the cultures of Florida from Paleo-Indian, Archaic, Woodlands and Mississippian periods through the exploration, missionization, colonization and territorial periods. The methods of prehistory and ethnohistory will be compared and contrasted as sources.

## Art

### Beginning Drawing ART 1300C

Drawing as a means of visual organization. Emphasis on drawing fundamentals of proportion, perspective, composition, etc. Subject matter varied. Pencil, charcoal, conte, pen and ink, etc. Students provide supplies.

### Ceramics I ART 1750C

This course is an introduction to ceramics, a basic course in hand building, firing and glazing to provide a beginning knowledge of clay, concentration on the stoneware range. This is the first in a sequence of skill-building courses in ceramics.

### Ceramics II ART 1754C

This the second in a sequence of skill-building courses in ceramics, continuing the development of handbuilding clay forms, firing and glazing, and exposure to other firing ranges. Two hours lecture, two ours studio.

### Creative Expressions ART 2001C

This course is designed for anyone seeking to develop her or his creativity. Through a series of constructed projects students are introduced to new and unconventional as well as traditional forms of art. Students are encouraged to think through alternative avenues of expression. Creative expression seeks to awaken students to their own creative abilities.

### Digital Camerawork PGY 1800C

A basic introduction to the principles underlying both digital and traditional photography. This course is formulated to develop aesthetic, technical and conceptual skills with the digital camera. Access to a digital camera is required.

### Hist of Art, Ancient to 1400 ARH 1050

This course is a survey of the history and principles of Western Art through illustrated lectures with specific emphasis on the relation of styles to cultural context.

### Int to Creat Black & White Pho PGY 1401C

An introduction to the camera, its mechanics and use. Initial instruction in black and white darkroom techniques, including film development and printing. Student is required to complete a series of photographic assignments with emphasis on creativity and technique. Adjustable camera required.

### Raku ART 2772C

This course provides an in-depth exploration of raku forms, glazing and firing techniques.

### Sculpture I ART 2701C

Emphasis on arrangement and understanding of the relationship of three-dimensional forms. Advanced work will place emphasis on portraiture and on the draped and undraped figure in three-dimensional terms with the focus on modeling in clay. Work may be fired or cast in plaster. Students learn to patina and mount finished work. Students provide materials. This course can be repeated for a maximum of nine (9) credits.

### Wheel Throwing I ART 2752C

This course introduces the basic principles in wheel throwing and covers a broader range of ceramic technical information.

## Biological Sciences

### Anatomy & Physiology I BSC 1085

A survey of the integumentary, skeletal, muscular systems, as well as the articulations of the skeletal system, basic biological chemistry, the organization and function of the tissues of the human body.

### Anatomy & Physiology II BSC 1086

A survey of the anatomy and physiology of the nervous system, the endocrine system, special senses, cardiovascular system, lymphatic system, digestive system, respiratory system, urinary system, water and electrolyte balance, the reproductive system and development, growth, aging and genetics.

### Anatomy and Physiology I Lab BSC 1085L

A survey of the integumentary, skeletal, muscular systems, as well as the articulations of the skeletal system, basic biological chemistry, the organization and function of the tissues of the human body.

### Anatomy and Physiology II Lab BSC 1086L

A survey of the anatomy and physiology of the nervous system, the endocrine system, special senses, cardiovascular system, lymphatic system, digestive system, respiratory system, urinary system, water and electrolyte balance, the reproductive system and development, growth, aging and genetics.

### Environmental Biology PCB 2030

This course emphasizes man's relationship to the environment and all other living organisms. Included are population dynamics, ecosystems, evolution, and pollution. These principles are used to provide an understanding of environmental management and resource conservation.

### Human Body BSC 1020

Basic introduction to human anatomy and physiology emphasizing cellular biology, biochemistry, and body systems. Excellent preparation for further studies.

### Introduction to Marine Biology OCB 1000

Ecology, morphology and taxonomy of marine fauna with emphasis upon those organisms which inhabit the shallow water ecosystems and natural reef environments.

### Microbiology MCB 2010

Includes a description and taxonomy of microorganisms including bacteria, viruses, protozoa and fungi. Involves discussions of the history, significance and applications of the field. Presents lecture, Socratic. hybrid on line distance learning and hands-on experience with differential staining, selective media, sterile transfer and culture techniques, Also addresses regulation of microbial growth, aseptic and antiseptic technique, antibiotic sensitivity and antibiotic therapy, microbial physiology and metabolism, microbial genetics, acquired and innate immunity to microbes, wound healing as it relates to microbial infections, and the ecological and epidemiological aspects of microbial growth. Designed for students in the allied health professions, marine science and those intending to go on to major in other fields in the biological sciences and health professions.

### Microbiology Lab MCB 2010L

Includes a description and taxonomy of microorganisms I including bacteria, viruses, protozoa and fungi. Involves discussions of the history, significance and applications of the field. Presents lecture, Socratic. hybrid on line distance learning and hands-on experience with differential staining, selective media, sterile transfer and culture techniques, Also addresses regulation of microbial growth, aseptic and antiseptic technique, antibiotic sensitivity and antibiotic therapy, microbial physiology and metabolism, microbial genetics, acquired and innate immunity to microbes, wound healing as it relates to microbial infections, and the ecological and epidemiological aspects of microbial growth. Designed for students in the allied health professions, marine science and those intending to go on to major in other fields in the biological sciences and health professions.

### Principles of Biology I BSC 1010

An overview of the structural, ultra structural, chemical, genetic, developmental and physiological realms of living organisms.

### Principles of Biology I Lab BSC 1010L

A laboratory overview of the structural, ultra-structural, chemical, genetic, developmental and physiological realms of living organisms.

### Principles of Biology II BSC 1011

An overview of ecology, evolution, population genetics, plant anatomy and physiology, the origin of life, organic evolution, biological diversity, plants taxa, animal taxa, fungi, protozoa, bacteria and cladistics and phylogeny.

### Principles of Biology II Lab BSC 1011L

An overview of ecology, evolution, population genetics, plant anatomy and physiology, the origin of life, organic evolution, biological diversity, plants taxa, animal taxa, fungi, protozoa, bacteria and cladistics and phylogeny.

### Survey of Biological Science BSC 1005

This course examines the nature of life, animal behavior, and the relationships which exist between living organisms and their environment. Educational resources for the course include the Clark Maxwell Jr. Marine Environmental Habitat and Observatory as-well-as our science computer lab. This course employs a combination of class lecture, relevant guest speakers, interactive software programs, videotapes and field trips.

## Business

### Business Law I BUL 2241

Business law as part of the management environment; common and statutory law, contract law, agency, and commercial transactions.

### Business Law II BUL 2242

Business law as part of the management environment; commercial paper, bankruptcy, business organizations, property, and government regulations.

### Intro to Human Resource Mgmt MAN 1300

This course explores the management of human resources in an overview perspective. Topics covered are: payroll, compensation and benefits, staffing, training and development, performance appraisals, organizational management, policy, and maintaining effective relationships with employees. Students, will be exposed to the dynamics of how the human resource department and the company strategically work together to balance employee morale and return on investment. Thought provoking questions will initiate a well-rounded learning experience of HRM and the affects on business operations.

### Introduction to Business GEB 1011

The role and function of business enterprise within our economic framework. Includes organization, finance, marketing, personnel administration, production and economics. Designed primarily to help students select their field of business specialization.

### Principles of Marketing MAR 2011

A study of marketing concepts, including market research, consumer psychology, pricing

strategies, product development, promotion, and distribution. Lecture and case studies.

### Small Business Management SBM 2000

Procedures for planning, launching and successfully operating a new business. Emphasizes the entrepreneur's need for sound managerial skill.

## Communications and Speech

### Intro to Speech Comm SPC 1608

This course is designed to assist the student in understanding and implementing oral communication skills. Learning is centered in student participation in a variety of speaking-listening situations designed to increase the understanding of the interpersonal nature of all speech communication. This Gordon Rule class has a 6,000 word writing requirement.

## Computer Science

### Int to Microcmp Database Mgmt CGS 2540

This course is not ordinarily counted in the Associate in Arts degree. This course introduces database management concepts and their application in a business environment. Topics to be covered include fundamental concepts of database design, creating, using and modifying database files, sorting, querying, and generating reports with hands-on experience using a relational database software package.

### Intro to Computer Applications CGS 1100

This course is an introduction to computers and their applications. Students will learn to identify the basic components and devices that comprise a computer system; to use the Internet as a source of information and a means for communications; and to use application software packages (including word processing, spreadsheet, database management, and presentation graphics programs).

### Intro to Computer Science CGS1000C

The primary topics covered in this course include computer input and output devices, the processor, auxiliary storage, file structures, and data base, data communications, operating systems, programming languages, computer history, and professions in the computer industry. Students will be introduced to word processing, data base, and spreadsheet. The student will also learn computer programming with the BASIC language.

# Course Descriptions Continued

## **Introduc to the World Wide Web** CGS1550

This course is not ordinarily counted in the Associate in Arts degree. This course introduces students to the fundamental concepts and resources involved in using the Internet via the World Wide Web (WWW). It teaches what the WWW is, how to browse and search it, and how to write effective Web pages using the Hypertext Markup Language (HTML). The course will include a discussion of basic theory as well as practical hands-on exercises.

## **Microcomputer Help Desk I** CTS 1155

This course is not ordinarily counted in the Associate in Arts degree. This course is designed to teach students practical PC help desk skills. Students learn to use appropriate troubleshooting, diagnostic, and problem resolution techniques to resolve PC software and hardware problems. Real world situations are addressed through a combination of lecture, demonstration, and an emphasis on practical, intensive laboratory activities.

## **Microsoft Excel** CTS 1261C

This course is not ordinarily counted in the Associate in Arts degree. Microsoft Excel is an integrated software package that provides spreadsheet, graphics, and database capabilities for the solution of accounting, business, financial analysis, and mathematical problems. This hands-on class utilizes a variety of practical exercises with Microsoft Excel to develop an understanding and proficiency in its operation, capabilities, and applications.

## **Microsoft Windows** CTS 2104

This course is not ordinarily counted in the Associate in Arts degree. Microsoft Windows is a multi-tasking operating environment with a Graphical User Interface for IBM PC compatible microcomputers. It employs a point and click approach to operating the computer with windows, pull down menus and icons. The course will consist of guided hands-on session and lab exercises.

## **Criminal Justice**

### **Criminal Investigation** CJE 2600

This course presents the philosophical, historical and present background of the criminal investigation process. The student will learn and, in some cases, apply current criminal investigation procedures and techniques dealing with offenses confronting a modern police/investigating agency.

## **Int to the Criminal Justice Sy** CCJ 1020

This course presents the philosophical background of law enforcement agencies, their development, purposes, functions, and organization with attention given to contemporary problems, processes and Constitutional aspects involved in the administration of criminal justice in a democratic society.

## **Diving Business Technology**

### **Adv Diving Theory & Practice** PEN2137C

This course is not ordinarily counted in the Associate in Arts degree. The course provides the basic diver with additional training in physics, physiology, dive tables use, salvage calculations, dive planning, and the enhancement of skills to attain an advanced certification. Nationally recognized certification as an openwater scuba diver is a requirement for enrollment in this course and will be verified by the instructor at the first class.

### **Aquatic 1st Aid/CPR/O2** EMS 1344

This course does not ordinarily count in the Associate in Arts degree. Instructs individuals in recognition of signs and symptoms for accidents and injuries in the aquatic/workplace environment and how to apply appropriate first aid practices, implementation of CPR, and the application of oxygen in the management of accidents and injuries.

### **Basic Research Diving** ISC 2132

This course is not ordinarily counted in the Associates in Arts degree. This is a multi disciplinary course designed to expose students to the tools and techniques for collecting scientific data underwater. This course will include a review of the theory and practical application of scientific diving through the use of scuba diving skills and research methodology as applied to the fields of shipwreck archaeology, physical oceanography, and marine biology. Nationally recognized certification as an advanced scuba diver is a requirement for enrollment in this course and will be verified by the instructor at the first class.

### **Bus of Recreational Diving** MKA 2621

This course is not ordinarily counted in the Associate in Arts degree. Lecture and practical experience in the areas of dive shop management to prepare the student to manage all aspects of a modern dive service facility. Course will cover charter boat operations,

retail operations, service operations, training facility operations, and overhead cost control.

### **Divemaster** PEQ1137C

This course is not ordinarily counted in the Associate in Arts degree. This course provides the required training and experience to serve in a supervisory capacity in open water diving activities and to act as an underwater guide or instructional assistant. Successful student will be qualified to apply for divemaster membership in the National Association of Underwater Instructors (NAUI). Nationally recognized certification as a rescue diver, as well as current certification in first aid/CPR and at least 25 logged dives are requirements for enrollment in this course and will be verified by the instructor at the first class. Students will be required to obtain a diving medical exam prior to starting water activities. Certification as an oxygen provider will be required by the end of the course.

### **Science of Under Water Perform** ISC 1142

This course is not ordinarily counted in the Associate in Arts degree. Provides students with a sound, scientific basis for understanding human performance under water. May be used as preparation for certification in skin or scuba diving.

### **Scuba Diving** PEN1136C

This course is not ordinarily counted in the Associate in Arts degree. This is an extensive course for training persons in open water recreational diving. Students will be expected to supply their own snorkeling equipment. Satisfactory completion of this course leads to internationally recognized scuba certification. Students must demonstrate satisfactory swimming ability, physical stamina and emotional stability to instructor at the first lab. Medical certificate may be required.

### **Scuba Rescue & Emer Medicine** EMS 2081C

This course is not ordinarily counted in the Associate in Arts degree. Qualify certified scuba divers and/or waterfront, boating, and public safety personnel to effectively perform aquatic rescues of distressed scuba divers and to provide emergency medical management and other support in a field setting. Requirements for enrollment are: 1) nationally recognized certification as an advanced scuba diver and 2) nationally recognized current certification in 1st Aid, CPR, and Oxygen Provider OR current enrollment in EMS 1344, Aquatic First Aid/CPR/O2. These requirements will be verified by the instructor at the first class.

### **Work Diving Technology** EOC 2711

This course is not ordinarily counted in the Associate in Arts degree. Provides divers with the skills and knowledge required to apply

state-of-the-art scuba diving equipment and procedures to the performance of underwater work in a safe and effective manner. Curriculum includes technology that extends into tethered diving and use of full-face masks, wireless and hard-wire communications, and dry exposure suits. Scenarios in a wide variety of working environments include the use of underwater equipment impacting upon diver performance. An introduction to the use of surface-air-supplied equipment may be provided as appropriate. Includes specialty ratings applicable for certification as Master Diver. Nationally recognized certification as an advanced scuba diver or work diving experience with permission of instructor is a requirement for enrollment in this course and will be verified by the instructor at the first class.

## **Economics**

### **Macroeconomics** ECO 2013

Study of the U.S. economy, including functions of an economic system, extermination of market prices, measuring the economy's performance, causes of unemployment and inflation, and government taxation, spending, and monetary policies.

## **Education**

### **Intro Diversity for Educators** EDF 2085

Designed for the prospective educator, this course provides the opportunity to explore issues of diversity, including an understanding of the influence of exceptionalities, culture, family, gender, sexual orientation, and socioeconomic status, and religion, languages of origin, ethnicity and age upon the educational experience. Students will explore personal attitudes toward diversity and exceptionalities. Students will be provided information on the Florida Educator Accomplished Practices, Sunshine State Standards, and the Professional Educator Competencies. A minimum of 15 hours of field-based experience working with diverse populations for children and youth in schools or similar settings is required. The filed experience should not be via virtual modes of film or internet. This course introduces students to the diversity of the school populations of Florida and of America in general, and examines strategies for teaching with respect for multiple diversities.

### **Intro to Environmental Educ** EDG 2331

This course introduces environmental education drawing upon the special resources of the Florida Keys. Active, collaborative, non-traditional field experiences are stressed and practiced. Topics reflect field experience and include a broad scope of outdoor and museum activities.

### **Introduction to Education** EDF 2005

A survey course including sociological and philosophical foundations of education, governance and finance of education, educational policies, legal, moral and ethical issues and the professionalism of teaching. Students will be provided information on the Florida Educator Accomplished Practices, Sunshine State Standards, and the Professional Educator Competencies. Students are required to complete a minimum of 15 hours of field-based experience with children and youth in schools or similar settings and not via virtual modes of film or Internet.

## **Educator Preparation Institute**

### **Seg B, Field Experience** EPI 0945

This course provides a 15 hour field experience segment in a public, charter, or accredited private school for the EPI 0030 module.

### **Segment A, Diversity** EPI 0030

This course teaches an understanding of the variety of backgrounds and cultures that may be found in a typical classroom and how social class, religion, language, gender differences, culture and ethnicity, physical differences, and prejudices have an effect on how a student learns.

## **Emergency Medical Services**

### **1st Responder for Med Prof** EMS 1059C

This course is not ordinarily counted in the Associate in Arts degree. This course is based on the National Highway Traffic Safety Administration and DOT Standard curriculum for first responders at scenes of accident and/or illness and is designed to prepare the student for emergency care of a victim, providing the skills and knowledge of care prior to the arrival of the Emergency Medical Technician/Paramedic. Recognition of symptoms and signs of impending danger to the patient's life and the accepted treatment modes for the conditions will be taught as well as techniques for extrication (light duty) of the accident victim. This course is required for firefighters, law enforcement officers, volunteer rescue personnel, and those wishing to enter the EMS profession.

### **Emergency Medical Technician** EMS 1159C

This course is not ordinarily counted in the Associate in Arts degree. The EMT course is designed as a one semester course, 11 credit hours in length to prepare the student for

employment in an EMS System as an EMT. In addition to regular classroom lecture and lab practical time, the student will be assigned to contract agencies for experience in riding with the rescue and ambulance units under supervision of State of Florida EMT's or Paramedics. Students will also be assigned to hospital agencies for emergency department experience. Upon successful completion of this course students will be eligible for application to the State of Florida and/or the National Registry for certification by examination as an Emergency Medical Technician. The course meets and exceed the 1994 US D.O.T. EMS National Standards curriculum as required by the Florida Department of Emergency Medical Services, and the Florida Department of Education.

## **English**

### **Beginning Poetry Writing** CRW 1300

This course focuses on shorter poetry writing in a workshop format. Basic structural and formal elements of conventional, free form and experimental poetry are introduced and interpreted through readings of and structured critical response to the student's own poetry. Occasionally, established poets' work is introduced as example and model. Through supportive in-class critique, the student learns the craft of revising poetry. The course includes a 6,000 word writing requirement.

### **College Preparatory Comm Skill** ENC 0020C

(Does not carry college credit.) A course of group and individualized instruction with emphasis on English grammar, sentence structure, punctuation, spelling, and paragraph/essay structures. The course presents critical thinking and writing strategies for composing sentences, paragraphs, and college essays. Required of students whose test scores/writing sample indicate a need for developmental writing skills.

### **English Composition I** ENC 1101

A course that emphasizes accepted standards and techniques of expository writing, logical thinking, and reading with literal and critical comprehension. Students are expected to write coherent, unified prose, develop a thesis statement, arrange main ideas and supporting details, and use effective vocabulary, conventional sentence structure, and standard American English grammar and usage. Includes a 6,000 word writing requirement.

## Course Descriptions Continued

### **English Composition II** ENC 1102

Expository writing based upon the close reading and study of selected examples from fiction, poetry, and drama. The course emphasizes oral and written analytical interpretations which include recognition of the traditional techniques, forms, and rhetorical devices used by writers of literature. The course also serves as an introduction to literature. Includes a 6,00 word writing requirement.

### **Introduction to Short Fiction** LIT 2020

The course surveys significant short fiction by representative writers, past and present, traditional, experimental, and avant-garde. It includes interpretation, analysis, historical development, and cultural context of the works as well as a 6,000 word writing requirement.

## **Graphic Arts Design**

### **Intro to Computer Based Design** GRA 1100C

This course is an introduction to the computer as a tool for graphic design.

## **History**

### **Hist of United States to 1876** AMH 2010

The United States to 1876. Our European and Asiatic background in the Colonial period. Emphasis upon the American Revolutionary period; constitutional development; political, social, economic, and cultural sectionalism leading to the Civil War, and the Reconstruction era.

### **Hist of US, 1876-1945** AMH 2020

The United States from its Centennial to 1945. Emphasis upon its rise to World Power status; the political, social, economic, and cultural forces used to maintain World Power status; and the beginnings of the Cold War.

### **History of the US I** AMH 2010

The United States to 1876. Our European and Asiatic background in the Colonial period. Emphasis upon the American Revolutionary period; constitutional development; political, social, economic, and cultural sectionalism leading to the Civil War, and the Reconstruction era.

### **Oral & Community History** HIS 2071

This course will explore the purpose, value, theory, and achievement of oral and community history. Students will gain

experience in collecting, interpreting, and processing their own interviews.

### **Surv of African Am Hist** AMH 2091

The course surveys the national background of Africans before their forced migration to the United States and Latin America. It will focus on free blacks as well as those enslaved in colonial and revolutionary America. The course will also examine the Abolition Movement, the Civil War, and prominent African Americans. It will focus on the cultural, social, economic, political and religious history of African Americans from the arrival through the twentieth century.

### **World History I** WOH 1012

Survey of the evolution of comparative civilizations from ancient times to the modern era. Students examine the development of civilizations throughout the world as well as the political, social, and economic views as they evolved in the various areas.

### **Human Services**

#### **Assess & Treat Planning** HUS 1421

This course mixes both theory and practical application of the process of gathering data from a number of sources and synthesizing this information for the purpose of preparing a treatment plan for an addiction client. It begins with a review of addiction basics and ends with each student completing an assessment interview and writing up a Bio-psycho-social Narrative Assessment.

#### **Comm Skills Using Thera Comm** HUS 1422

Students will focus on basic communication skills-attending, paraphrasing, reflection, interpretation, summarizing, probing self-disclosures and confrontation. Various therapeutic communication techniques will be explored as well as common blocks to communication. Effective helper skills will be discussed.

#### **Ethics for Addiction Prfssnal** HUS 1500

This course provides an understanding of legal and ethical issues encountered in counseling and the field of addictions. Students will explore the Code of Ethics and Conduct for Addiction Professional of Florida in depth. Numerous case studies will be presented allowing students to practice ethical and legal decision making. The concept of boundaries and boundary invasion will be discussed. The student will be exposed to various legal statutes that effect the addiction counselor.

### **Family Counseling in Addiction** HUS 1443

This course provides an overview of family counseling including major theories, tenets of the model, techniques and clinical applications. It is designed to present an overview so that the addictions therapist becomes aware of signs of family dysfunction and can make appropriate referrals. Taking this course does not qualify one to do family counseling. Specific modalities useful in the substance abusing family include psycho educational approaches. Alanon and Alateen will be discussed. The last 4 hours of this class focuses on domestic abuse in the substance abusing family.

### **Int to Cert Add Prof Process** HUS 1007

This course helps the student gain information about certification, why certification is necessary and the overall mission of the Certification Board of Addictions Professionals of Florida (CBAPF). Classifications of addiction professionals are explained as well as legibility requirements, standards and proficiency measures are covered.

### **Intro to Chem Depend/Addict** HUS 1400

This course is one of the basic introduction courses in the addictions studies program and includes a basic overview of the disease of addiction/chemical dependency; a historical perspective of addictions and reviews a variety of addiction disorders; DSM-IV criteria necessary to diagnose addiction/dependence and abuse and to become familiar with the differences between abuse and dependence; introductory knowledge on the permanent brain chemistry changes that take place in addiction; a theoretical basis for treating addiction and treatment protocol.

### **Issues Intimacy/Sexuality** HUS 2482

This course provides an overview of the common intimacy and sexual concerns faced by the recovering population. The normal human sexual response cycle will be covered along with various kinds of relationships on a continuum from homosexuality to heterosexuality. The role of the counselor in sex/relationship counseling will be emphasized as well as appropriate referral sources.

### **Relapse Prevention** HUS 2460

This course focuses on why relapse occurs and why it is considered a part of recovery for many addicts. The course aids helping professionals to prepare clients to deal with relapse mode behavior and quick recovery from slips.

## **Humanities**

### **Humanities: Art and Music** HUM 2511

This course is an introduction to the stylistic character and cultural climate of the important art epochs of Western civilization. Study is made of how the various arts responded to the same sociocultural conditions and how each art is related to the others in the patterns of cultural history. Representative works of art and music are presented as illustrations. There is a 6,000 word writing requirement.

### **Introduction to Humanities** HUM 1020

This is a basic introduction to the student of humanities using an interdisciplinary approach. This course focuses on central concepts and the fundamental nature of philosophy, architecture, literature, music, religion, and art. Concepts from these disciplines are integrated with contemporary American culture. This course includes a 6,000 word writing requirement.

## **International Relations**

### **Intro International Relations** INR 2001

Introduction to International Relations surveys and analyzes theoretical applications to global events and how States relate to one another. Coursework will reflect the fundamentally changing way in which States interact, from the traditional methodology of diplomacy, war and trade to modern formulas such as international finance, goods, communications, peoples movements and the ubiquitous influence of non-state actors such as multinational corporations, NGO's and terrorist networks. This course will identify the forces that drive the emerging international order in the 21st Century and provide students with an understanding of the underlying causes and context for seemingly irrational international developments.

## **Languages**

### **Beginning Spanish I** SPN 1120C

Spoken and written forms of the Spanish language. The major purpose of the course is to teach students to understand and to speak Spanish as a medium of communication through a good pronunciation and solid vocabulary.

### **Beginning Spanish II** SPN 1121C

Strengthening the student's ability to speak and understand Spanish through cultural readings and practical, interesting class discussions. The course provides information about Spanish customs and the Hispanic World.

### **Intro to Queer Latina(o) Lit** SPW 1790

This course will explore a sample of the literature created in the United States by authors that identify themselves as Latino and Latina queer writers. The concept of queer literature will be explored and it will be the starting point to analyze several texts produced by queer Hispanics in the United States.

## **Library Science**

### **Intro to Internet Research** LIS 2004

This course is offered by the Florida public community college system. It is delivered via the World Wide Web and Internet e-mail. The course focuses on methods of accessing information resources available through the Internet. Students will learn to design search strategies, retrieve, evaluate and cite Internet resources. One hour lecture.

## **Literature**

### **Creative Writing I** CRW 1001

This course is designed to develop students' literary voices through the study and application of techniques of writing fiction, poetry, drama and the essay. Through supportive in class critiques and occasional discussion of professional models, the student learns the craft of writing. This course includes a 6,000 word writing requirement.

## **Marine Sciences**

### **Coral Reef Biology & Mgmt** OCB 2264C

this course introduces students to the basic biology of corals and coral reefs, including a discussion of ecological principles such as: competition, diversity, symbiosis, disturbance, adaptation, reproduction, and recruitment. Also examined are the major taxa living in coral reef ecosystems of the Caribbean and florida, including seagrasses and mangroves. Latter portions of the cours introduce current polices and best practice for coral reef conservation and management, with emphasis on the Florida Keys National Marine Sanctuary. The in-field laboratory portion will illustrate concepts from the lecutres, and give students practical experience in basic coral reef monitoring techniques.

### **Dolph Stud & Field Exp: Cogn** OCB 2310

This introductory program provides an in-depth, hands-on immersion into the field of marine mammal science and surveys a wide range of knowledge, theories and ongoing research concerning marine mammals, including instruction specific to the facility and its resident dolphins. The class focuses on concepts and research methodology in the

study of cognitive abilities and social behavior of marine mammals. Students will reside at the Dolphin Research Center on Grassy Key.

### **Dolphin Lab** OCB 1301C

This introduction to the biology of the dolphin surveys cetacean taxonomy, anatomy, physiology, pathology, stranding, capture, health care, nutrition and training. Students will reside for a full week at the Dolphin Research Institute on Grassy Key. Course requirements center upon a 3,000 word journal.

### **Introduction to Oceanography** OCE 1001

This course is intended for non-science majors and is an introduction to the science of oceanography. Topics include, physics and chemistry of seawater, major ocean basins and features of the coastline, major ocean circulation patterns and currents, characteristics of deep and shallow water waves and the tides along with interactions of atmosphere with the oceans.

### **Marine Data Collection** OCB 2102C

This interdisciplinary field-oriented laboratory course involves marine data collection and the establishment of a marine data base for selected reef, sea grass, and mangrove island communities. Students will survey marine communities with emphasis on population dynamics, succession and the establishment of density, dominance, frequency and importance values for sessile invertebrates and marine plants.

## **Marine Technology**

### **2 & 4 Cycle Outbrd Rep & Maint** MTE 1053C

This course is not ordinarily counted in the Associate in Arts degree. A basic, two-cycle and four-cycle gasoline outboard engine course in terminology, fasteners, hand tools, measuring instruments and special tools. Laboratory consists of each student--individually--disassembling, inspecting and assembling outboard power heads. Using manufacturers' literature, each student in lab must submit a written report setting forth every part name, function, condition, part number and cost, as well as special tools or procedures used on each power head.

### **Applied Marine Electricity** MTE 1400C

This course is not ordinarily counted in the Associate in Arts degree. Basic electrical theory for A/C & D/C circuits in marine systems. Application of electrical theory to the generating, starting and auxiliary circuits of the marine engine. Emphasis on theory of operation and repair of equipment in the field with special attention to marine problems in a salt-water environment.

## Course Descriptions Continued

### **Basic Seamanship** MTE 1811

This course is not ordinarily counted in the Associate in Arts degree. Fundamentals of small boat handling, chart reading, rules of the road, rigging, safety and boat licensing. Hands-on plotting with local charts, practical knots and other rope work. Weather permitting on the water practice.

### **Gas and Electric Welding** MTE 1651C

This course is not ordinarily counted in the Associate in Arts degree. Provides basic welding knowledge and skills necessary to make repairs on ferrous metals used in the marine industry. Emphasis on metallurgy and uses of metals. The course is designed for the student with no welding background and includes the safety and theory of gas welding, metal cutting, brazing with brass and silver alloys, AC/DC ARC welding stick, and introduction to aluminum TIG and MIG welding.

### **Mar Corrosion & Crrsn Prevent** MTE 2062

This course is not ordinarily counted in the Associate in Arts degree. Basic theory of galvanic, electrolysis, fatigue, biological, cavitation and chemical corrosion. The zinc sacrificial and the impressed current commercial corrosion control systems are demonstrated. Composition, structure, application and evaluation of commercial classes of protective coatings for metals, proper metal preparation, and coating application are covered. New corrosion laboratory has an extensive collection of marine corrosion examples for demonstration. Students are given individual projects on several different metals and coating materials.

### **Marine Ignition & Fuel Systems** MTE1166C

This course is not ordinarily counted in the Associate in Arts degree. This course addresses the theory, operation and service of up-to-date electronic/computerized fuel and ignition systems as well as conventional systems and focuses upon characteristics of fuels and their oil mixture, fuel systems, safety, marine carburetors, tank construction and correct installation. In depth study of 2 and 4 cycle carburetor repair and service and ignition and fuel troubleshooting using test equipment, computer testing and the dynameter.

### **Mrn 4-Cycle Strn Drv-Inbrd Eng** MTE 2054C

This course is not ordinarily counted in the Associate in Arts degree. A lecture-laboratory course on four-cycle in-line and v-type inboard gasoline engines. Lab includes troubleshooting, disassembly, and inspection and cleaning of various types of inboard gas

engines by General Motors, Ford, Mercruiser and Volvo Penta. Preparation of technical job work order for the procurement of replacement parts, installing new parts, assembly and checking with the correct instruments is part of the lab.

### **Mrn Auxiliary Equip Servicing** MTE 2541C

This course is not ordinarily counted in the Associate in Arts degree. This course provides an introduction to pumps, DC/AC electricity and generators; hydraulics; LP gas systems, solar power, marine sanitation devices, air conditioning and refrigeration, and other topics of interest to mariners. Within each unit, theory of operation and fundamentals of servicing are taught with a strong emphasis on techniques. Stern drive and outboard power Tilt and Trim operations and repairs.

### **Mrn Grcs, Outdrvs & Transms Sy** MTE 2234C

This course is not ordinarily counted in the Associate in Arts degree. This course emphasizes large outboard lower units, stern drives and marine gear assemblies including Borg-Warner, and Twin Disc for use on engines to 500 H.P. Focus will be upon the function of gears, gearing, bearings, and seals relating this information to the schematics of transmissions found in the service manuals. Complete disassembly and reassembly procedures on all outboard lower units including mechanical, Alpha I, Bravo I, Cobra, King Cobra, Volvo gear cases using special tools and shimming procedures. Study of hydraulics in transmission of Borg-Warner, Twin Disc. In depth theory of propellers and selection, using manufacturer's information.

### **One Hundred Ton Gross Master** MTE 2883

This course does not ordinarily count towards the Associate in Arts degree. The purpose of this course is to allow a USCG licensed captain to upgrade from OUPV (6 pack) to 100 Gross Tons Master. The primary topics covered in this course include rigging, cargo handling, structural members, stability and trim, compass error and adjustment, pollution, fire fighting, communications regulations, maritime law, life saving and survival, anchoring and towing, small vessel passenger regulations, and rules of the road. Upon successful completion of this course the attendee will be able to pass the USCG approved 100 GT Master Exam, offered at the end of the course.

## Mathematics

### **Calculus & Analytic Geometry I** MAC 2311

This course begins with the study of limits, continuity, derivatives, and applications. The course ends with the study of antiderivatives and applications of the definite integral to area under a curve. This course is taught with analytic geometry throughout.

### **College Algebra** MAC 1105

This course is a study of functions and their properties. The functions studied include polynomials, rational, absolute value, radical, exponential, and logarithmic. Properties include functional notation, domains, ranges, graphs, operations, and inverses. Application problems are designed so that they can be applied to practical situations. A graphing calculator is required for this course.

### **Individual Topics Arithmetic** MAT 0002

(Does not carry college credit). Designed for entering students with low scores on the mathematics placement test. The course will teach all the arithmetic skills necessary for basic algebra. The topics will include whole numbers, fractions, decimals, percents, measurements, area, perimeter, volume, operations with integers, simple equations, and formulas. A scientific calculator (TI 30 or equivalent) is required.

### **Int Probability & Statistics I** STA 2023

A mathematics course that focuses on the following major topics: Probability, random variables, hypothesis testing, confidence interval estimation, small sample methods, correlation, and simple linear regression.

### **Intermediate Algebra** MAT 1033

This course reviews and extends many of the topics in basic algebra. The student will solve real-world problems through linear and quadratic function modeling. A graphing calculator is required for this course.

### **Introduction to Algebra** MAT 0024C

(Does not carry college credit.) Algebra is the study of how variable quantities relate to each other. Students learn how to use the three most common kinds of mathematical relationships (linear, quadratic and exponential) to solve real problems. The graphing calculator is used throughout to illustrate the students' work in linear, quadratic, and exponential models. Extensive use of the graphing calculator also reduces the emphasis on memorized mathematical procedures and allows the student to focus on discovering how mathematical models solve real problems and allow us to make predictions about complex situations involving many variables. The students still use a procedure

based textbook to learn the basic algebraic principles: signed number, equation solving, systems of equations, polynomials, factoring, rationals, radicals, quadratics, etc. However, the goal of the course involves a much higher order of the goal of the course involves a much higher order of thinking...the analysis and synthesis of math models and the evaluation of those models.

### **Mathematics for Liberal Arts I** MGF 1106

This course is intended to familiarize the student with useful, realistic approaches to solving real-world problems. Applications are selected to best fit the needs and interests of the class. An introductory but relatively thorough look at linear programming, from a geometric point of view through computer-based models, is emphasized. The remaining portion provides the fundamentals of set theory, combinations and permutations, probability theory and other related topics.

### **Trigonometry** MAC 1114

This course is a study of trigonometric functions and their inverses, solutions of plane triangles, complex numbers, graphs of trigonometric functions, trigonometric equations and identities. Introduction to vector algebra. It also develops higher level problem-solving skills needed in many other studies.

## Music

### **Music Appreciation I** MUH 2011

This course is designed as a non-technical approach to the enjoyment of listening to music for the student who has little or no musical background. The emphasis is on an intelligent listening procedure to material drawn from standard repertoire through the Baroque period (1750).

## Nursing

### **Clinical Nursing I** NUR 1211C

This course is not ordinarily counted in the Associate in Arts degree. Clinical Nursing I is designed to introduce the student to selected medical-surgical concepts and provide the opportunity to expand and refine clinical skills acquired in Fundamentals of Nursing. Utilizing a systems framework, students are introduced to the inflammatory process and pathological conditions of diabetes and the ears, eyes, nose and throat. The respiratory, musculoskeletal, cardiovascular, immunological, hematopoietic, integumentary systems as well as the special needs of the medical and surgical patient are also examined. Students are expected to formulate nursing care plans based on thorough assessments made of adult patients in the clinical setting and on knowledge of pathophysiology.

### **Clinical Nursing II** NUR 2213C

This course is not ordinarily counted in the Associate in Arts degree. Clinical Nursing II is designed to provide the student with additional theory and practice in more complex and specialized medical/surgical areas of nursing. Students are expected to apply facts and scientific principles from previous courses. Utilizing a systems framework, students are introduced to the geriatric patient and pathological conditions of the genitourinary, neurological hepatic and biliary systems. Areas of oncology, fluids and electrolytes, hemodynamics, and burns are also examined. Students are expected to formulate and apply nursing care plans based on thorough assessment of patients in the clinical setting and on knowledge of pathophysiology and psychosocial needs of the patient.

### **Clinical Nursing III** NUR 2818C

Clinical Nursing III provides students with the opportunity to build upon knowledge and skills developed in previous nursing courses. Students are introduced to implementing principles of leadership and management. Classroom content relates to the preparation of the student for assuming the role of professional nurse. Prioritization and delegation are important concepts in this course. The clinical component is an individualized experience that is selected in collaboration with the faculty and an RN preceptor. One alternate preceptor may be designated. Guidelines for level II practicum experiences are defined by the Florida Board of Nursing in the Nurse Practice Act chapter 64B (15 a-g). All preceptor practicum experiences are to be obtained on an adult medical-surgical unit or floor. The only exceptions considered are for LPNs and require the permission of the faculty and program director. The clinical component of practicum will not commence until all requirements for NUR 2462C are successfully met. The preceptor must be approved by the nursing program and must be an RN licensed in the State of Florida. It is the responsibility of the student to meet with the preceptor to review clinical expectation and goals prior to beginning clinical time. The student must obtain a resume from the preceptor and a signed letter of agreement.

### **Fundamentals of Nursing** NUR 1020C

This course is not ordinarily counted in the Associate in Arts degree. Fundamentals of Nursing is designed to introduce the student to selected concepts and technologies which are utilized in the practice of nursing. Concepts of health, stress adaptation, biological, psychological, and social needs provide the student with a theoretical basis for the assessment, planning, implementation, and evaluation of nursing care to selected patients. Clinical experiences are provided in both a practice laboratory and in various health care facilities under faculty supervision.

Throughout the course, the student is expected to develop a beginning understanding of the various roles and responsibilities inherent in the nursing profession.

### **Maternal-Child Health** NUR 2462C

This course is not ordinarily counted in the Associate in Arts degree. Concepts from nursing fundamentals are adapted to the nursing care of the family. Through classroom and clinical experiences, students gain knowledge of the processes, problems, and deviations from health which influence or alter the normal course of parenthood and child care. Studies of women's health, the reproduction cycle, growth and development of the child, well and ill child care, and the impact of illness and hospitalization on the family are provided in the classroom. These studies provide the students with the theoretical basis to safely apply the nursing process in caring for obstetric and pediatric clients in a variety of health care settings.

### **Pharmacology for Nursing** NUR 1142

An introductory course in pharmacology for nurses. The outline is coordinated to match lecture content.

## Oceanography

### **Dolph Stud & Field Exp I** OCB 1311

This introductory program surveys a wide range of knowledge, theories and ongoing research concerning marine mammals, animal husbandry, operant conditioning training practices and related issues, including instruction specific to the facility and its resident dolphins. This course offers students a unique opportunity to gain career oriented hands-on experience in dolphin husbandry and training, including diet preparation; how to feed, reinforce, and maintain established behaviors all under the guidance of accomplished animal trainers. Students will reside at the Dolphin Research Center on Grassy Key. Course requirements center on active participation in the course and passing comprehensive end of course exam.

## Course Descriptions Continued

### Dolphin St & Field Exp II OCB 2313

The class delves more deeply into the fields of behavioral science, animal care and training. The course allows students to build on the knowledge they acquired during the Marine Mammal Care & Basic Training and begin focusing on training new behaviors, exploring animal enrichment and contemplating more complex issues surrounding marine mammal care. Students will implement a training plan they have developed to train a new behavior to a dolphin. Public speaking skills will also be developed as students learn how to present dolphins and their training experiences to the public. At the conclusion of the course, students will showcase the new behaviors they have trained for Dolphin Research Center guests in a formal, narrated presentation. Students will also explore animal enrichment through directed activities implemented with our dolphins and sea lions. Under the guidance of our staff, students will create enrichment toys and activities for the animals and present these activities and toys to the animals throughout the week and observe the animals' reactions. In order to better understand training differences between species and the need for flexibility in advanced training techniques, students will also apply their knowledge of training principles by teaching a new behavior to a canine Dolphin Lab participant. Each student will individually develop a training plan for the behavior to be trained, participate daily in regularly scheduled sessions with his/her canine partner, and demonstrate progress to DRC staff at the end of the week.

### Field App Mar Sci: Rest Seagra OCB 2133C

The students will learn why seagrass is important and why seagrass restoration is needed. They will also learn why the bird stake method is widely accepted for seagrass restoration. Students must master restoration methodologies including prop scar and blow out measurement, Braun Blanquet benthic assessment, bird stake construction and deployment and seagrass planting unit production and deployment. They must participate in the restoration of at least 50 m<sup>2</sup> of damaged seagrass. This course will have 2 lecture contact hours per week (=30 contact hours per semester) and 2 lab contact hours per week (=30 contact hours per semester).

### Introduction to Mariculture OCB 2721C

This course is a survey of tropical Mariculture covering the wide range of the marine sea farm industry including the raising marine animals for use as food, recreation, pets, medical research and indicator species for man made toxins released into the marine environment by industrial processes and waste water runoff. The course includes the history

of Mariculture, water chemistry, environmental requirements, pathology, and economic implications of the Mariculture industry today and in the future. Four hours lecture.

## Philosophy and Religion

### Introduction to Ethics PHI 2600

An introductory, undergraduate course that offers a critical evaluation of the major theories of moral values. The major emphasis of the course is the application of theory to contemporary ethical problems. Includes a 6,000 word writing requirement.

### Introduction to Philosophy PHI 2010

An introductory, undergraduate course that focuses on an examination of basic problems of philosophy. Includes a 6,000 word writing requirement.

## Physical Science

### Astronomy AST 1002

Descriptive study of the elements of astronomy including the chemical composition and motion of the planets, their moons, comets and asteroids. Theories of solar system formation, the Sun and the universe are discussed and compared based on the physical and the chemical nature of matter. Such current topics as the "Greenhouse Effect" caused by increased levels of carbon dioxide in the atmosphere and "The Hole in the Ozone Layer" caused by the release of Fluorochlorocarbons into the atmosphere are used to help understand the chemical nature of the atmospheres of other planets and their moons and the implications for planet Earth. Mathematical procedures are not stressed. Use of telescopes and computer software enhance the study of celestial objects. Recommended for liberal arts majors.

### Chemistry for Health Sciences CHM 1033

This course meets the new curriculum requirements of FKCC's pre-nursing program approved by the State of Florida's Board of Nursing. This course emphasizes chemistry topics related to the allied health science through the study of the essentials of inorganic and organic chemistry and biochemistry as it relates to processes and functions of the human body.

### Environmental Physical Science PSC 1515

This course is intended for non-science majors and is an introduction to the physical principles involved in the environment

and man's interaction with it. A variety of topics will be presented including air and water pollution, climate and weather, waste management, oceans and streams, and energy sources.

### General Chemistry I CHM 1045

The lecture portion of each class consists of approximately 50 minutes of lecture addressing topics from the required textbook. Atomic structure and molecular structure are studied, as well as the relation between mass and moles. The periodic properties of the elements, chemical reactions and chemical bonding are mastered and their relation to the three macro physical states of matter: gas, liquid, and solid.

### General Chemistry I Lab CHM 1045L

The lab portion of each class consists of approximately two and one-half hours of assigned laboratory work. Topics will be selected to complement the lecture material from CHM1045. Atomic structure and molecular structure are studied, as well as the relation between mass and moles. The periodic properties of the elements, chemical reactions and chemical bonding are studied and their relation to the three macro physical states of matter: gas, liquid, and solid.

### General Physics I PHY 1053C

Principles of mechanics, heat, and sound. For students not majoring in physics or engineering, or majors who have not had high school physics.

### Introduction to Meteorology MET 1010

Basic physical principles used in explaining the structure of the atmosphere, weather processes, and storms. Elements of weather observations, weather instruments and reporting. This course provides background for those who can utilize meteorology in their weather related activities.

### Organic Chemistry I CHM 2210

The lecture portion of each class consists of approximately 50 minutes (75 minutes for classes that meet twice a week) of lecture, three times a week, addressing topics from the required textbook. Fundamentals of organic chemistry are introduced. These include the IUPAC system of nomenclature for hydrocarbons, common names, isomerism, conformational analysis, and explanations of stability differences in an homologous series. Classes of compounds that will be studied are: alkanes, alkenes, alkynes, and arenes and their derivatives. Reference will be made to day-to-day events that are linked to organic chemistry topics.

### Organic Chemistry I Lab CHM 2210L

Experiments will be designed to reinforce the lecture topics in 2210C and familiarize students with laboratory equipment and techniques. Fractional distillations at atmospheric and reduced pressure, melting point experiments, colligative properties, model building and internet activities will be used. Additionally, the publishers web site will be available as supplemental material.

### Physical Science PSC 1341

Basic principles of physics and chemistry. Concepts of measurement, mechanics, electricity and magnetism, introduction to the modern concepts of matter, structure of atoms and molecules, and periodic classification of the elements.

## Political Science

### National Government POS 1041

The federal government of the United States with its historical background, the constitutional principles involved, and an analysis of the powers and functions of the three branches of national government.

## Psychology

### General Psychology PSY 2012

An introduction to psychology which exposes students to historical and current discoveries about the mind and behavior. Topics include: history of psychology, methods, psychobiology and brain research, sensation and perception, consciousness and altered states, motivation, learning, cognition and memory, language, intelligence, creativity,

personality, abnormal psychology, therapies and social psychology.

### Human Growth & Development DEP 2004

An introduction to developmental psychology, the course explores the different stages of human life--prenatal, infancy, childhood, adolescence, adulthood--and the biological, psychological and social changes occurring in individuals during them. Topics include: Theories of development, genetics and development, birth and the neonate, cognitive and brain development, early experience, attachment, motor and language development, social, sex-role and moral development, aging and death.

## Reading

### College Preparatory Reading I REA 0002C

(Does not carry college credit.) This course is designed to develop basic reading and study skills which prepare students for careers and for further academic work. It focuses on vocabulary development, literal reading skills, and basic critical reading skills. Upon successful completion, students enroll in REA 0003C.

### College Preparatory Reading II REA 0003C

(Does not carry college credit.) Development of basic reading and study skills necessary for college: vocabulary, literal and critical comprehension, vocabulary development, reading and studying techniques.

## Seamanship & Navigation

### Coastal Navigation MTE 1200

This course is not ordinarily counted in the Associate in Arts degree. Materials

and equipment, techniques and procedures involved in safe marine coastal navigation. Theory of chart projections, construction of Mercator projection, magnetism and the magnetic compass, ships' position finding by dead reckoning and piloting, employment of nautical charts and utilization of aids to navigation as well as the theory and effects of tides and current. Weather permitting, on the water use of navigation lessons.

### Ocean Operator's Lic Prep Crse MTE 1882

This course is not ordinarily counted in the Associate in Arts degree. This course is designed to increase boating safety for all and to prepare those who wish to obtain a Coast Guard license to take the examination for OUPV motorboat license for those who meet the Coast Guard requirements.

## Sociology

### Introduction to Sociology SYG 1000

Conceptual elements of society, outlining their development, significance and dynamics of interaction.

## Student Life Skills

### College Survival Skills SLS 1401

The purpose of this course is to provide an opportunity for students to learn and adopt methods to promote their success in school, in their personal life and on the job. It suggests tools for growth and learning and taps on the student's individual potential.

Enjoy Island Living *and* Island Learning at

# FKCC's New Residence Hall

Florida Keys Community College is proud to now offer on-campus student housing. The 100-bed, waterfront residence hall, aptly named Lagoon Landing, is located adjacent to our dive training lagoon on the Key West Campus.

Lagoon Landing features suite-style living arrangements with fully-furnished four- and five-bedroom, two-bathroom units. The common living area of each suite includes a kitchenette with a refrigerator, stove-top, and microwave. Free Wi-Fi is provided and cable television connections are available in

each student's room. Each suite is equipped with an emergency telephone and building entrances are monitored by security cameras and are accessible only to residents and authorized college officials.

Residents of Lagoon Landing enjoy social areas like a patio lounge and fitness center. They will also have access to the college pool, tennis courts, and student lounge during designated times.

Like any great place to live, Lagoon Landing's best qualities are *location, location, location!*

- **Beautiful *Location*:** Residents live waterfront, in the heart of our beautiful campus with one of the best sunset views in the Keys.
- **Academically-Oriented *Location*:** Residents are just steps from their classes, their instructors, their advisors, and resources like the Library and ISLE tutoring center to support their academic success.
- **Socially-Active *Location*:** "Lagoon Landing" hosts regular social events—enabling residents to connect with suitemates and neighbors and develop friendships that will be the foundation of their collegiate memories.

## Only 100 beds! Apply today!

Preference will be given to first-time-in-college, full-time, degree-seeking students. For more information, email [housing@fkcc.edu](mailto:housing@fkcc.edu) or visit [www.fkcc.edu](http://www.fkcc.edu) to take the virtual tour and view the "Goonie Life" photo gallery.
