ATTEST:

CHERYL SMITH, CITY CLERK

EXECUTIVE SUMMARY

Date: July 10, 2009

To: James Scholl, City Manager

From: Gary Bowman, Director of General Services

Subject: Approve execution of a contract agreement with the Division of Emergency Management (DEM) for a FEMA Hazard Mitigation Grant for the installation of Rip Rap at White St. Pier in the amount of \$451,420 and approve any necessary budget transfers.

Action Statement

This resolution would approve the City entering into an agreement with the state DEM for a FEMA Hazard Mitigation Grant for the installation of Rip Rap at White St. Pier.

Project Issue

White St. Pier (WSP) was severely impacted by the 2005 hurricane season and Hurricane Wilma resulting in undermining on the west side causing the sidewalk to collapse. Installing Rip Rap on the westside and end of WSP, where none currently exists, will mitigate damage in the future.

Options

- Option #1** Enter into a hazard mitigation grant contract with DEM for FEMA funds for 75% of the cost to install riprap at WSP which will limit damage from future storms.
- Option #2** Do not approve the grant and pay the total \$451,420 from City funds or don't do the project and pay nothing.

Financial Issues

The total project cost is \$451,420. FEMA will reimburse the City \$338,565 (75%) and the local share will be \$112,855 (25%). Currently the City has budgeted \$85,000 for the City's local match. The City also has two TDC grants that can be used for 50% of the local match; one with a balance of \$24,500 and one for \$73,500. These funds are more than sufficient to cover the local match; however a budget transfer is needed to construct the project prior to FEMA reimbursement.

Recommendation

Approve execution of a contract agreement with the Division of Emergency Management (DEM) for a FEMA Hazard Mitigation Grant for the installation of Rip Rap at White St. Pier in the amount of \$451,420 and approve any necessary budget transfers.

(10) DEFAULT

If any of the following events occur ("Events of Default"), all obligations on the part of the Division to make further payment of funds shall, if the Division elects, terminate and the Division has the option to exercise any of its remedies set forth in Paragraph (11). However, the Division may make payments or partial payments

after any Events of Default without waiving the right to exercise such remedies, and without becoming liable to make any further payment:

- (a) If any warranty or representation made by the Recipient in this Agreement or any previous agreement with the Division is or becomes false or misleading in any respect, or if the Recipient fails to keep or perform any of the obligations, terms or covenants in this Agreement or any previous agreement with the Division and has not cured them in timely fashion, or is unable or unwilling to meet its obligations under this Agreement;
- (b) If material adverse changes occur in the financial condition of the Recipient at any time during the term of this Agreement, and the Recipient fails to cure this adverse change within thirty days from the date written notice is sent by the Division.

- (d) If the Recipient has failed to perform and complete on time any of its obligations under this Agreement.

(11) **REMEDIES**

If an Event of Default occurs, then the Division may, after thirty calendar days written notice to the Recipient and upon the Recipient's failure to cure within those thirty days, exercise any one or more of the following remedies, either concurrently or consecutively:

- (a) Terminate this Agreement, provided that the Recipient is given at least thirty days prior written notice of the termination.  - 4. require the Recipient to reimburse the Division for the amount of costs incurred for any items determined to be ineligible;
- (f) Exercise any other rights or remedies which may be available under law.
- (g) Pursuing any of the above remedies will not stop the Division from pursuing any other remedies in this Agreement or provided at law or in equity. If the Division waives any right or remedy in this Agreement or fails to insist on strict performance by the Recipient, it will not affect, extend or waive any other right

or remedy of the Division, or affect the later exercise of the same right or remedy by the Division for any other default by the Recipient.

(c) The parties may agree to terminate this Agreement for their mutual convenience through a written amendment of this Agreement. The amendment will state the effective date of the termination and the procedures for proper closeout of the Agreement.

(d) In the event that this Agreement is terminated, the Recipient will not incur new obligations for the terminated portion of the Agreement after the Recipient has received the notification of termination. The Recipient will cancel as many outstanding obligations as possible. Costs incurred after receipt of the termination notice will be disallowed. The Recipient shall not be relieved of liability to the Division because of any breach of Agreement by the Recipient. THE FOLLOWING FEDERAL RESOURCES ARE AWARDED TO THE RECIPIENT UNDER THIS AGREEMENT:

NOTE: If the resources awarded to the Recipient are from more than one Federal program, provide the same information shown below for each Federal program and show total Federal resources awarded.

Federal Program: *Federal Emergency Management Agency, Hazard Mitigation Grant*
Catalog of Federal Domestic Assistance Number: *97.039*
Amount of Federal Funding: *\$348,593.00*

THE FOLLOWING COMPLIANCE REQUIREMENTS APPLY TO THE FEDERAL RESOURCES AWARDED UNDER THIS AGREEMENT:

NOTE: If the resources awarded to the Recipient represent more than one Federal program, list applicable compliance requirements for each Federal program in the same manner as shown below.

Federal Program:

List applicable compliance requirements as follows:

1. Recipient is to use funding to perform the following eligible activities; include mitigation projects that will result in protection of public or private property from natural hazards. Eligible projects include, but are not limited to:
 - Acquisition of hazard prone properties
 - Retrofitting of existing buildings and facilities
 - Elevation of flood prone structures
 - Infrastructure protection measures
 - Storm water management improvements
 - Minor structural flood control projects
 - Relocation of structures from hazard prone areas
 - Retrofitting of existing buildings and facilities for shelters
 - Vegetative management/soil stabilization
 - Mitigation Planning Project
 - Other projects that reduce future disaster losses
2. Recipient is subject to all administrative and financial requirements as set forth in this Agreement, or will be in violation of the terms of the Agreement.

NOTE: Instead of listing the specific compliance requirements as shown above, the State awarding agency may elect to use language that requires the Recipient to comply with the requirements of applicable provisions of specific laws, rules, regulations, etc. For example, for Federal Program 1, the language may state that the Recipient must comply with specific laws, rules, or regulations that pertain to how the awarded resources must be used or how eligibility determinations are to be made. The State awarding agency, if practical, may want to attach a copy of the specific law, rule, or regulation referred to.

NOTE: Section .400(d) of OMB Circular A-133, as revised, and Section 215.97(5)(a), Florida Statutes, require that the information about Federal Programs and State Projects included in Exhibit 1 be provided to the Recipient.

Attachment A

Budget and Scope of Work

Scope of Work

As a Hazard Mitigation Grant Program project, the Recipient, the City of Key West, will provide protection by installing a rip rap approximately 1,000 Lineal Feet for Monroe County White Street Pier to avoid damages or undermining to the Pier future events. All installations will be done in strict compliance with Miami-Dade County and/or Monroe County Specifications.

Environmental Review Project Conditions:

1. The Recipient must follow all applicable state, local and federal laws regulations and requirements, and obtain (before starting project work) and comply with all required permits and approvals. If project work is delayed for a year or more after the date of the CATEX, then coordination with and project review by regulatory agencies must be redone.
2. Any change, addition or supplement to the approved Scope of Work that alters the project (including other work not funded by FEMA, but done substantially at the same time) will require re-submission of the application to FEMA for NEPA re-evaluation before starting project work.
3. If any archaeological material is discovered during project work, work in that area shall cease immediately and the Recipient will contact the State Historic Preservation Officer (SHPO) and the DHS/FEMA Region IV Environmental Officer and FDEM State Environmental Liaison Officer for further guidance.
4. Construction vehicles and equipment used for this project shall be maintained in good working order to minimize pollutant emissions.
5. Best management practices will be used during project work to minimize soil erosion, sediment migration and turbidity. The Recipient will need to prepare and implement a Storm Water Pollution Prevention Plan (SWPP) The Recipient must obtain a National Pollutant Discharge Elimination System (NPDES) stormwater permit (if area of disturbance will be greater than one acre). The Applicant will need to provide a copy of the Notice of Intent (NOI) submitted to use the State of Florida Generic Permit for stormwater discharge from construction activities; response letter from Florida Department of Environmental Protection (FDEP) if provided; and a copy of the Notice of Termination (NOT) – at project closeout.
6. For projects involving groundwater dewatering activities at the construction site, provide documentation of coverage under the Florida Department of Environmental Protection (FDEP) "Generic Permit for the Discharge of Produced Ground Water from any Non-contaminated Site Activity."
7. The Applicant must obtain a required NOAA permit that authorizes relocation of affected coral colony prior to construction. The Applicant must submit documentation of NOAA permit at project closeout. Failure to do so may jeopardize funding.
8. Permittee must comply with the Sea Turtle and Smalltooth sawfish Construction Conditions: The Permittee shall instruct all personnel associated with the project of the potential presence of these species and the need to avoid collisions with sea turtle and Smalltooth sawfish. All construction personnel are responsible for observing water-related activities for the presence of these species. The Permittee shall advise all construction personnel that there are civil and criminal penalties for harming, harassing, or killing sea turtles or Smalltooth sawfish, which are protected under the Endangered Species Act of 1973. Siltation barriers shall be made of material in which a sea turtle or Smalltooth sawfish cannot become entangled, be properly secured, and regularly monitored to avoid species entrapment. Barriers may not block sea turtle or Smalltooth sawfish entry to or exit from designed critical habitat without prior

agreement from the National Marine Fisheries Service's Resource Division, St. Petersburg, Florida. All vessels associated with the construction project shall operate at "no wake/idle" speeds at all times while in the construction area and while in water depths where draft of the vessels provides less than a four-foot clearance from the bottom. All vessels will preferentially follow deep-water routes (e.g., marked channels) whenever possible. If a sea turtle or Smalltooth sawfish is seen within 100 yards of the active daily construction/dredging operation or vessel movement, all appropriate precautions shall be implemented to ensure its protection. These precautions shall include the cessation of operation of any moving equipment closer than 50 feet of a sea turtle or Smalltooth sawfish. Operation of any mechanical construction equipment shall cease immediately if a sea turtle or Smalltooth sawfish is seen within a 50-foot radius of the equipment. Activities may not resume until the protected species has departed the project area of its own volition. Any collision with and/or injury to a sea turtle or Smalltooth sawfish shall be reported immediately to the National Marine Fisheries Service's Protected Resource Division (727-824-5312) and the local authorized sea turtle stranding/rescue organization.

9. Prior to the initiation of any of the work, the Permittee shall install floating turbidity barriers with weighted skirts that extend to within 1 foot of the bottom around all work areas that are in, or adjacent to, surface waters. The turbidity barriers shall remain in place and be maintained until the authorized work has been completed and all erodible material have been stabilized.

This is FEMA project **1602-10-R**, funded under 1602-DR-FL.

Coastal Barriers Resources Act (CBRA)	Completed

Comment: PHASE II:

The project includes work in the Atlantic Ocean, but is located approximately 1.4 miles to the east of (and not within) the nearest coastal barrier unit.-MHAIGHT1-05/11/2009 13:29 GMT

Clean Water Act (CWA)	Completed
-----------------------	-----------

Comment: PHASE II:

Per Florida Department of Environmental Protection letter dated August 7, 2007, the project "has been determined to qualify as an activity which is exempt from the need for an Environmental Resource Permit." Project is covered by U.S. Army Corps of Engineers (USACE) Individual Permit No. SAJ-1995-1241 (IP-ALS). Permit conditions include provisions for sea turtles, Smalltooth sawfish, floating turbidity barriers with weighted skirts, and a NOAA permit. All applicable conditions of the USACE Permit must be followed. The project site is approximately 0.2 acre.-MHAIGHT1-05/11/2009 13:29 GMT

Coastal Zone Management Act (CZMA)	Completed
------------------------------------	-----------

Comment: PHASE II:

The Florida Department of Environmental Protection (FDEP) has reviewed the project. FDEP is the state's final consistency concurrence with the Florida Coastal Management Program in accordance with Section 373.428, Florida Statutes.-MHAIGHT1-05/11/2009 13:30 GMT

Endangered Species Act (ESA)	Completed

No effect determination for Phase I only.-RMYERS1-01/04/2007 22:52 GMT
PHASE II:

American Crocodile and Stock Island Snail listed for project area. Project is also within the Florida Keys National Marine Sanctuary (FKNMS). Additionally, Research has indicated that there may be submerged aquatic vegetation (SAV) growing in the vicinity of the pier and that soft corals may be found on the pier bulkhead and in the substrate adjacent to the pier. Project is covered by U.S. Army Corps of Engineers (USACE) Individual Permit No. SAJ-1995-1241 (IP-ALS), expiring March 17, 2014. Thirdly, the USACE requires the applicant to obtain and provide the Corps a National Oceanic and Atmospheric Administration (NOAA) authorization/permit prior to the start of construction. Florida Keys National Marine Sanctuary (FKNMS) (in an email dated August 29, 2008) has indicated receipt of the City of Key West's revised Coral Relocation Plan, and advised the City to move forward with a "quantitative benthic survey, determine suitable corals for relocation, and identify appropriate relocation areas" before applying for the NOAA permit. Per conversation with Joanne Delaney with the FKNMS on April 28, 2009, the City of Key West has been diligent throughout the process, has hired a reputable contractor, and is moving forward with obtaining the required documentation and surveys to get the necessary NOAA permit(s). FEMA Environmental is satisfied with approving the project with the following condition: The Applicant must obtain a required NOAA permit that authorizes relocation of affected coral colony prior to construction. The Applicant must submit documentation of NOAA permit at project closeout. Failure to do so may jeopardize funding. Additionally, per a letter dated October 24, 2007, the National Marine Fisheries Service has determined sea turtles and Smalltooth sawfish may be affected by noise and human presence during the project construction; however, the effects will be temporary, and localized, and "based on this information, NMFS believes that the effects of this project to listed species are insignificant." The NMFS goes on to conclude "the proposed action is not likely to adversely affect any listed species under our purview." Additionally, the NMFS states "the applicant will be required to use turbidity curtains." Project conditions are outlined in Record of Consideration.-MHAIGHT1-05/11/2009 13:34 GMT

Approximately 15.1% of the population of Key West, Florida is characterized as having a minority background, and about 10.2% of the population lives below the poverty level. The project area has a lower proportion of minority populations than the State of Florida (23.9%) as a whole, and a slightly lower proportion of low-income populations than the State (12.6%) as a whole.-MHAIGHT1-05/11/2009 13:52 GMT

In addition to the above statutes and regulations, the Recipient must comply with the following:

The Recipient shall fully perform the approved hazard mitigation project, as described in the Application and Attachment A (Budget and Scope of Work) attached to this Agreement, in accordance with the approved scope of work indicated therein, the estimate of costs indicated therein, the allocation of funds indicated therein, and the terms and conditions of this Agreement. Recipient shall not deviate from the approved project and the terms and conditions of this Agreement. Recipient shall comply with any and all applicable codes and standards in performing work funded under this Agreement, and shall provide any appropriate maintenance and security for the project.

Any development permit issued by, or development activity undertaken by, the Recipient and any land use permitted by or engaged in by the Recipient, shall be consistent with the local comprehensive plan and land development regulations prepared and adopted pursuant to Chapter 163, Part II, Florida Statutes. Funds shall be expended for, and development activities and land uses authorized for, only those uses which are permitted under the comprehensive plan and land development regulations. The Recipient shall be responsible for ensuring that any development permit issued and any development activity or land use undertaken is, where applicable, also authorized by the Water Management District, the Florida Department of Environmental Protection, the Florida Department of Health, the Florida Game and Fish Commission, and any federal, state, or local environmental or land use permitting authority, where required. Recipient agrees that any repair or construction shall be in accordance with applicable standards of safety, decency, and sanitation, and in conformity with applicable codes, specifications and standards.

Recipient will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the completed work conforms with the approved plans and specifications and will furnish progress reports and such other information to HMGP as may be required.

If the hazard mitigation project described in Attachment A includes an acquisition or relocation project, then Recipient shall ensure that, as a condition of funding under this Agreement, the owner of the affected real property shall record in the public records of the county where it is located the following covenants and restrictions, which shall run with and apply to any property acquired, accepted, or from which a structure will be removed pursuant to the project:

1. The property will be dedicated and maintained in perpetuity for a use that is compatible with open space, recreational, or wetlands management practices;

You are reminded that no construction may occur in this phase, that a full environmental review must be completed prior to funding Phase II.

As a reminder, the Recipient must obtain prior approval from the State, before implementing changes to the approved project Scope of Work (SOW). Per the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments:

- (4) When any of Recipient's projects funded under this Agreement may affect a historic property, as defined in 36 CFR 800. (2)(e), the Federal Emergency Management Agency (FEMA) may require Recipient to review the eligible scope of work in consultation with the State Historic Preservation Office (SHPO) and suggest methods of repair or construction that will conform with the recommended approaches set out in the **Secretary of Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings 1992 (Standards)**, the **Secretary of the Interior's Guidelines for Archeological Documentation (Guidelines)** (48 Federal Register 44734-37), or any other applicable Secretary of Interior standards. If FEMA determines that the eligible scope of work will not conform with the **Standards**, Recipient agrees to participate in consultations to develop, and, after execution by all parties, to abide by, a written agreement that establishes mitigation and recondition measures, including but not limited to, impacts to archeological sites, and the salvage, storage, and reuse of any significant architectural features that may otherwise be demolished.

The SHPO will advise Recipient on any feasible steps to be accomplished to avoid any National Register eligible archeological property or will make recommendations for the development of a treatment plan for the recovery of archeological data from the property.

If Recipient is unable to avoid the archeological property, develop, in consultation with the SHPO, a treatment plan consistent with the **Guidelines** and take into account the Advisory Council on Historic Preservation (Council) publication "Treatment of Archeological Properties". Recipient shall forward information regarding the treatment plan to FEMA, the SHPO and the Council for review. If the SHPO and the Council do not object within 15 calendar days of receipt of the treatment plan, FEMA may direct Recipient to implement the treatment plan. If either the Council or the SHPO object, Recipient shall not proceed with the project until the objection is resolved.

- (6) Recipient shall notify the Division and FEMA as soon as practicable: (a) of any changes in the approved scope of work for a National Register eligible or listed property; (b) of all changes to a project that may result in a supplemental DSR or modify an HMGP project for a National Register eligible or listed property; (c) if it appears that a project funded under this Agreement will affect a previously unidentified property that may be eligible for inclusion in the National Register or affect a known historic property in an unanticipated manner. Recipient acknowledges that FEMA may require Recipient to stop construction in the vicinity of the discovery of a previously unidentified property that may be eligible for inclusion in the National Register or upon learning that construction may affect a known historic property in an unanticipated manner. Recipient further acknowledges that FEMA may require Recipient to take all reasonable measures to avoid or minimize harm to such property until FEMA concludes consultation with the SHPO. Recipient also acknowledges that FEMA will require, and Recipient shall comply with, modifications to the project scope of work necessary to implement recommendations to address the project and the property.

- (7) Recipient acknowledges that, unless FEMA specifically stipulates otherwise, it shall not receive funding for projects when, with intent to avoid the requirements of the PA or the NHPA, Recipient intentionally and significantly adversely affects a historic property, or having the legal power to prevent it, allowed such significant adverse affect to occur.
