### PROJECT

The department proposes to purchase Scott SCBA composite compressed air bottles from Fisher Scientific utilizing an existing purchasing contract with the State of Florida, pursuant to City Code 2 – 797 (3), Exceptions. During the budget process \$24,000.00 was allocated for this purchase from Capital (101).

\$23,986.30 (\$33,444.10-\$9,457.80 discount) is requested to purchase 34 bottles.

The Department proposes the purchase utilizing Fisher Scientific for the following reasons:

- The purchases can be made utilizing existing contracts with the State of Florida.
- The Scott composite compressed air bottles are those that are compatible with our existing SCBA (self contained breathing apparatus), and the mounting brackets on our fire trucks. The bottles have a defined service life that we must recognize in a program of replacement.
- An informal survey confirms this is the best pricing for the type and quality SCBA bottles required for our needs.

#### OPTIONS:

- Purchase the equipment as planned and budgeted.
- Do not purchase the equipment.

#### ADVANTAGES:

- The composite compressed air bottles are compatible with existing SCBA's and brackets.

#### DISADVANTAGES:

- No disadvantages are apparent.

#### FINANCIAL IMPACT:

Funds are budgeted in the Infrastructure Fund (101) Fire Department approved FY 08-09 budget.

#### RECOMMENDATION:

The Key West Fire Department strongly recommends the purchases.

By entering into the Contract, a Contractor authorizes the Buyer to eliminate duplication between agreements in the manner the Buyer deems to be in its best interest.

### **2.19 Public Records**

Article 1, section 24, Florida Constitution, guarantees every person access to all public records, and Section 119.011, Florida Statutes, provides a broad definition of public record. As such, all responses to a competitive solicitation are public records unless exempt by law. Any respondent claiming that its response contains information that is exempt from the public records law shall clearly segregate and mark that information and provide the specific statutory citation for such exemption.

## **2.20 Protests**

Any protest concerning this solicitation shall be made in accordance with sections 120.57(3) and 287.042(2) of the Florida Statutes and chapter 28-110 of the Florida Administrative Code. Questions to the Procurement Officer shall not constitute formal notice of a protest. It is the Buyer's intent to ensure that specifications are written to obtain the best value for the State and that specifications are written to ensure competitiveness, fairness, necessity and reasonableness in the solicitation process.

**Section 120.57(3)(b), F.S. and Section 28-110.003, Fla. Admin. Code require that a notice of protest of the solicitation documents shall be made within seventy-two hours after the posting of the solicitation.**

**3.2 Definitions**

The definitions found in s. 60A-1.001, F.A.C. shall apply to this agreement. The following additional terms are also defined:

- a. "The Department" means the Florida Department of Management Services.
- b. "Procurement Officer" means the Buyer's Contracting personnel, as identified in Section 3.1.
- c. "MSRP" is an acronym for the Manufacturer's Suggested Retail Price. It represents the manufacturer's recommended retail selling price for a specific item, or list of items, and must be publicly listed, available, and verifiable by the Department. In the event a Vendor does not create, maintain, or utilize MSRP for

specific Commodities within this solicitation, that Vendor may use its Government Book Price as the MSRP for those specific Commodities. The Vendor must use the MSRP or Government Book Price for all items within a specific Commodity and shall not use both within the same Commodity.

- d. "Government Book Price" represents the manufacturer's pre-determined selling price for a specific item, or list of items, to all non-Contracted government entities.
- e. "Eligible Users" is defined in 60A-1.005, F.A.C. The following entities are eligible users:
  1. All governmental Agencies, as defined in Section 163.3164, F.S., which have a physical presence within the State of Florida;
  2. Any independent, non-profit college or university that is located within the State of Florida and is accredited by the Southern Association of Colleges and Schools. Specific Authority 287.042 (12) F.S. Law Implemented 287.012 (12) F.S. History – New 8-24-04.

Section 287.056 of the Florida Statutes governs Agencies' use of the Contract. Others may seek Department approval under section 287.042(2)(a) as an eligible user of the Contract.

- f. "Contractor" means any person who contracts to sell commodities or contractual services to an agency.

### 3.3 Who May Respond

Fully capable dealers, distributors, and manufacturers who are regularly engaged in the sale of laboratory and safety supplies and equipment and who are in good standing with the State of Florida, meet the terms, conditions, and specifications of the solicitation, and which possess the financial capability, experience, and personnel resources to provide products and services of the scope and breadth described in this ITB. Reminder: Successful Contractor(s) must have the ability to supply and service equipment to State Agencies and eligible political subdivisions, as requested, regardless of geographic location within the State of Florida.

Respondents who bid may use their authorized dealer networks to fulfill the requirements of the Contract. However, in each and every case, the Respondent, not the distributor, will be held accountable for performance under the Contract and shall be the focal point for all performance issues. Only the authorized dealers listed in the solicitation Response will be eligible to provide products on behalf of the manufacturer through this solicitation.

By submitting a Response, each Respondent certifies that it satisfies all criteria specified in the solicitation documents. The Department may request, and the Respondent shall provide, supporting information and / or documentation. Failure to supply supporting information and / or documentation within the timeframe requested may result in disqualification of bid.

The Department and Eligible Users retain the right to request additional information pertaining to the Respondent's ability and qualifications to accomplish all services described in this ITB as deemed necessary during the ITB or after Contract award.

### 3.4 Estimated Expenditure

Historically, the State of Florida Agencies and other eligible users have expended **approximately twelve million dollars (\$12,000,000) annually** for the acquisition of products and services covered in this ITB. Past expenditures are no guarantee of future sales. These estimated figures are given only as a guideline for preparing your ITB Response and should not be construed as representing guaranteed sales under the Contract.

### 3.5 Period of Agreement

This agreement shall be in effect from the start date of the Contract for an initial period of sixty (60) months, with the potential for renewal. Renewal is contingent upon satisfactory performance by the Contractor.

### 3.6 Basis for Award

The Department will evaluate Responses against all criteria set forth in the Invitation to Bid. The Department shall award the Contract to the lowest, most responsible and responsive Respondent, with price being the controlling criterion, which the Department determines will provide the best value to the State.

The Department reserves the right to accept or reject any and all Responses, or separable portions, and to waive any minor irregularities, technicality, or omission if the Department determines that doing so will serve the State's best interest.

The Department reserves the right to award by line item, product group, or to a single or multiple Respondents on a Statewide basis if it is determined that doing so will serve the State's best interest. The Department reserves the right to reject pricing that is greater than pricing offered on the current awarded State Contract or to other potential Customers (e.g., city, county, university, national Contracts, GSA federal Contracts, etc). However, it is the desire of the State to award to one single vendor, should pricing and product line offered be sufficiently competitive.

Current State Contract pricing may be viewed at the following website:

[http://dms.myflorida.com/dms/purchasing/State\\_Contracts\\_agreements\\_and\\_price\\_lists/State\\_term\\_Contracts/laboratory\\_supplies\\_and\\_equipment](http://dms.myflorida.com/dms/purchasing/State_Contracts_agreements_and_price_lists/State_term_Contracts/laboratory_supplies_and_equipment)

The percent discount from list price that applies to the Manufacturer's/Supplier's price list will be calculated automatically on results tab of the price sheet. The results of the weighted score can be located on the tab entitled "Results".

Pricing for each product group will be weighted by spend volume. The weight factors supplied on the price sheet are derived from the relative sales quantity to state agencies of the high volume items specified on the price sheet. The weight factors are as follows:

Class	Weight Factor
Class 1a	5.8%
Class 1b	1.5%
Class 2	6.7%
Class 3	0.1%
Class 4	2.8%
Class 5	38.3%
Class 6	14.7%
Class 7	16.7%
Class 8	13.4%

All items in a class must be bid on the spreadsheet entitled "Price Sheet #2". The yellow spaces (cells) on the price sheet are the places where the bidder is required to supply bid data. Additionally, the class tabs must be completed for each product listed that the Respondent currently offers. The following information must be supplied on the bid price sheet for each category bid: The current list price per item (labeled as "actual price"), the percentage discount bid to the State through this solicitation, and the overall actual "contract price" offered to the State of Florida.

### 3.7 Addendums to the Solicitation Documents

The Department reserves the right to issue addendums to the solicitation. Notice of any addendums will be posted within MyFloridaMarketPlace and the Vendor Bid System. Such notice, if required, will contain the appropriate details for identifying and / or reviewing the formal changes to the solicitation. Each Respondent is responsible for monitoring the site(s) for new or changing information concerning this solicitation.

### 3.8 Price

Respondents shall submit, via the on-line electronic procurement system, the Price Sheet provided in the solicitation. The Price Sheet provides a method for offering percentage discounts (Sheet 1) off MSRP for Classes 1 through 9 and provides a method of comparing pricing on 180 past purchased items (Sheet 2). Failure by the Respondent to complete and submit both sheets in the price workbook will result in its bid being disqualified.

Prices shall be submitted in the form of a single, fixed discount per class off manufacturer's suggested retail price list (MSRP) in effect at the time of the solicitation due date with current Contract pricing and GSA discount structure or better preferred. All purchase prices shall include FOB destination.

For the price comparison component, Bidders may bid alternate brands that comply with the specifications of the brands listed. Submit with bid submittal a letter explaining any product deviations and/or changes. The percentage discount bid for each class on the price sheets shall apply to the entire Contractor's Price List for that class on any Contract resulting from this bid.

Discount structure offered under the current State term Contract (#490-000-03-1) through awarded vendor Fisher Scientific Company LLC is as follows:

Class	Description	State Discount	Political Subdivision Discount
1a	Laboratory Chemicals	71.0%	52.0%
1b	Fine Organic Chemicals	18.0%	12.0%
2	Culture Media	30.0%	18.0%
3	Plasticware, Sterile	38.0%	25.0%
4	Glassware	43.1%	26.0%
5	Miscellaneous Expendable Supplies	47.0%	28.0%
6	Miscellaneous Equipment	30.8%	16.0%
7	Biotechnology Products	20.0%	10.0%
8	Safety Equipment and Products	25.5%	15.0%
	Additional Quantity Discount for orders totaling \$15,000 or greater	1.0%	1.0%

The Bidder shall provide copies of its comprehensive price list as part of the submittal Response on a CD in an Excel format for all products. Price list will include item description, model number, manufacturer's suggested retail price, percentage discount off retail, contract purchase price, and unit of measure item is sold in.

Percentage discount per class used for product calculations must be the same for the life of the Contract. The State must be able to understand how pricing was derived in order to calculate future pricing when new products are added to the Contract. Note: The price list submitted with Response will be used by Agencies and eligible users for purchase under this Contract. All prices must be listed on a per unit basis, and all prices are

binding. Vendors are encouraged to offer larger discounts to qualified ordering entities for large, one-time, single orders.

### 3.9 Electronic Posting

Offers shall be opened on the date and time indicated on the Event Timeline and thereafter evaluated. Prices will not be read, pursuant to Section 119.071(1)(b) [Supersedes reference in paragraph 2.11, Section 2 General Instructions to Respondents (PUR 1001)] of the Florida Statutes. On the date indicated on the Timeline, the Department shall electronically post a Notice of Intended Award in MyFloridaMarketPlace and also in the State vendor bid system at [http://fcn.State.fl.us/owa\\_vbs/owa/vbs\\_www.main\\_menu](http://fcn.State.fl.us/owa_vbs/owa/vbs_www.main_menu). #### 4.1 Definitions

The definitions contained in s. 60A-1.001, F.A.C. shall apply to this agreement. The following additional terms are also defined:

(a) "Contract" means the legally enforceable agreement that results from a successful solicitation. The parties to the Contract will be the Customer and Contractor.

(b) "Customer" means the State agency or other entity identified in a contract as the party to receive commodities or contractual services pursuant to a contract or that orders commodities or contractual services via purchase order or other contractual instrument from the Contractor under the Contract. The "Customer" may also be the "Buyer" as defined in the PUR 1001 if it meets the definition of both terms.

(c) "Product" means any deliverable under the Contract, which may include commodities, services, technology or software.

(d) "Purchase order" means the form or format a Customer uses to make a purchase under the Contract (e.g., a formal written purchase order, electronic purchase order, procurement card, contract or other authorized means).

#### 4.2 Purchase Orders

In contracts where commodities or services are ordered by the Customer via purchase order, Contractor shall not deliver or furnish products until a Customer transmits a purchase order. All purchase orders shall bear the Contract or solicitation number, shall be placed by the Customer directly with the Contractor, and shall be deemed to incorporate by reference the Contract and solicitation terms and conditions. Any discrepancy between the Contract terms and the terms stated on the Contractor's order form, confirmation, or acknowledgement shall be resolved in favor of terms most favorable to the Customer. A purchase order for services within the ambit of section 287.058(1) of the Florida Statutes shall be deemed to incorporate by reference the requirements of subparagraphs (a) through (f) thereof. Customers shall designate a contract manager and a contract administrator as required by subsections 287.057(15) and (16) of the Florida Statutes.

#### 4.3 Product Version

Purchase orders shall be deemed to reference a manufacturer's most recently release model or version of the product at the time of the order, unless the Customer specifically requests in writing an earlier model or version and the contractor is willing to provide such model or version.

#### 4.4 Price Changes Applicable only to Term Contracts

If this is a term contract for commodities or services, the following provisions apply.

(a) Quantity Discounts. Contractors are urged to offer additional discounts for one time delivery of large single orders. Customers should seek to negotiate additional price concessions on quantity purchases of any products offered under the Contract. State Customers shall document their files accordingly.

(b) Best Pricing Offer. During the Contract term, if the Customer becomes aware of better pricing offered by the Contractor for substantially the same or a smaller quantity of a product outside the Contract, but upon the same or similar terms of the Contract, then at the discretion of the Customer the price under the Contract shall be immediately reduced to the lower price.

(c) Sales Promotions. In addition to decreasing prices for the balance of the Contract term due to a change in market conditions, a Contractor may conduct sales promotions involving price reductions for a specified lesser

period. A Contractor shall submit to the Contract Specialist documentation identifying the proposed (1) starting and ending dates of the promotion, (2) products involved, and (3) promotional prices compared to then-authorized prices. Promotional prices shall be available to all Customers. Upon approval, the Contractor shall provide conspicuous notice of the promotion.

(d) Trade-In. Customers may trade-in equipment when making purchases from the Contract. A trade-in shall be negotiated between the Customer and the Contractor. Customers are obligated to actively seek current fair market value when trading equipment, and to keep accurate records of the process. For State agencies, it may be necessary to provide documentation to the Department of Financial Services and to the agency property custodian pursuant to Chapter 273, F.S.

(e) Equitable Adjustment. The State may, in its sole discretion, make an equitable adjustment in the Contract terms or pricing if pricing or availability of supply is affected by extreme and unforeseen volatility in the marketplace, that is, by circumstances that satisfy all the following criteria: (1) the volatility is due to causes wholly beyond the Contractor's control, (2) the volatility affects the marketplace or industry, not just the particular Contract source of supply, (3) the effect on pricing or availability of supply is substantial, and (4) the volatility so affects the Contractor that continued performance of the Contract would result in a substantial loss.

#### **4.5 Additional Quantities**

For a period not exceeding ninety (90) days from the date of solicitation award, the Customer reserves the right to acquire additional quantities up to the amount shown on the solicitation but not to exceed the threshold for Category Two at the prices submitted in the response to the solicitation.

#### **4.6 Packaging**

Tangible product shall be securely and properly packed for shipment, storage, and stocking in appropriate, clearly labeled, shipping containers and according to accepted commercial practice, without extra charge for packing materials, cases, or other types of containers. All containers and packaging shall become and remain Customer's property.

#### **4.7 Inspection at Contractor's Site**

The Customer reserves the right to inspect, at any reasonable time with prior notice, the equipment or product or plant or other facilities of a Contractor to assess conformity with Contract requirements and to determine whether they are adequate and suitable for proper and effective Contract performance.

#### **4.8 Safety Standards**

All manufactured items and fabricated assemblies subject to operation under pressure, operation by connection to an electric source, or operation involving connection to a manufactured, natural, or LP gas source shall be constructed and approved in a manner acceptable to the appropriate State inspector. Acceptability customarily requires, at a minimum, identification marking of the appropriate safety standard organization, where such approvals of listings have been established for the type of device offered and furnished, for example: the American Society of Mechanical Engineers for pressure vessels; the Underwriters Laboratories and/or National Electrical Manufacturers' Association for electrically operated assemblies; and the American Gas Association for gas-operated assemblies. In addition, all items furnished shall meet all applicable requirements of the Occupational Safety and Health Act and state and federal requirements relating to clean air and water pollution.

#### **4.9 Americans with Disabilities Act**

Contractors should identify any products that may be used or adapted for use by visually, hearing, or other physically impaired individuals.

#### **4.10 Literature**

Upon request, the Contractor shall furnish literature reasonably related to the product offered, for example, user manuals, price schedules, catalogs, descriptive brochures, etc.

#### **4.11 Transportation and Delivery**

Prices shall include all charges for packing, handling, freight, distribution, and inside delivery. Transportation of goods shall be FOB Destination to any point within thirty (30) days after the Customer places an Order. A Contractor, within five (5) days after receiving a purchase order, shall notify the Customer of any potential delivery delays. Evidence of inability or intentional delays shall be cause for Contract cancellation and Contractor suspension.

#### **4.12 Installation**

Where installation is required, Contractor shall be responsible for placing and installing the product in the required locations at no additional charge, unless otherwise designated on the Contract or purchase order. Contractor's authorized product and price list shall clearly and separately identify any additional installation charges. All materials used in the installation shall be of good quality and shall be free of defects that would diminish the appearance of the product or render it structurally or operationally unsound. Installation includes the furnishing of any equipment, rigging, and materials required to install or replace the product in the proper location. Contractor shall protect the site from damage and shall repair damages or injury caused during installation by Contractor or its employees or agents. If any alteration, dismantling, excavation, etc., is required to achieve installation, the Contractor shall promptly restore the structure or site to its original condition. Contractor shall perform installation work so as to cause the least inconvenience and interference with Customers and with proper consideration of others on site. Upon completion of the installation, the location and surrounding area of work shall be left clean and in a neat and unobstructed condition, with everything in satisfactory repair and order.

#### **4.13 Risk of Loss**

Matters of inspection and acceptance are addressed in s. 215.422, F.S. Until acceptance, risk of loss or damage shall remain with the Contractor. The Contractor shall be responsible for filing, processing, and collecting all damage claims. To assist the Contractor with damage claims, the Customer shall: record any evidence of visible damage on all copies of the delivering carrier's Bill of Lading; report damages to the carrier and the Contractor; and provide the Contractor with a copy of the carrier's Bill of Lading and damage inspection report. When a Customer rejects a product, Contractor shall remove it from the premises within ten days after notification or rejection. Upon rejection notification, the risk of loss of rejected or non-conforming product shall remain with the Contractor. Rejected product not removed by the Contractor within ten days shall be deemed abandoned by the Contractor, and the Customer shall have the right to dispose of it as its own property. Contractor shall reimburse the Customer for costs and expenses incurred in storing or effecting removal or disposition of rejected product.

#### 4.14 Transaction Fee

The State of Florida has instituted MyFloridaMarketPlace, a statewide eProcurement System ("System"). Pursuant to section 287.057(23), Florida Statutes (2002), all payments shall be assessed a Transaction Fee of one percent (1.0%), which the Contractor shall pay to the State, unless exempt pursuant to 60A-1.032, F.A.C.

For payments within the State accounting system (FLAIR or its successor), the Transaction Fee shall, when possible, be automatically deducted from payments to the Contractor. If automatic deduction is not possible, the Contractor shall pay the Transaction Fee pursuant to Rule 60A-1.031(2), F.A.C. By submission of these reports and corresponding payments, Contractor certifies their correctness. All such reports and payments shall be subject to audit by the State or its designee.

Contractor shall receive a credit for any Transaction Fee paid by the Contractor for the purchase of any item(s) if such item(s) are returned to the Contractor through no fault, act, or omission of the Contractor. Notwithstanding the foregoing, a Transaction Fee is non-refundable when an item is rejected or returned, or declined, due to the Contractor's failure to perform or comply with specifications or requirements of the agreement.

Failure to comply with these requirements shall constitute grounds for declaring the Contractor in default and recovering reprocurement costs from the Contractor in addition to all outstanding fees. **CONTRACTORS DELINQUENT IN PAYING TRANSACTION FEES MAY BE SUBJECT TO BEING REMOVED FROM THE DEPARTMENT OF MANAGEMENT SERVICES' VENDOR LIST AS PROVIDED IN RULE 60A-1.006, F.A.C.**

#### 4.15 Invoicing and Payment

Invoices shall contain the Contract number, purchase order number if applicable, and the appropriate vendor identification number. The State may require any other information from the Contractor that the State deems necessary to verify any purchase order placed under the Contract.

At the State's option, Contractors may be required to invoice electronically pursuant to guidelines of the Department of Management Services. Current guidelines require that Contractor supply electronic invoices in lieu of paper-based invoices for those transactions processed through the system. Electronic invoices shall be submitted to the Customer through the Ariba Supplier Network (ASN) in one of the following mechanisms – EDI 810, cXML, or web-based invoice entry within the ASN.

Payment shall be made in accordance with sections 215.422 and 287.0585 of the Florida Statutes, which govern time limits for payment of invoices. Invoices that must be returned to a Contractor due to preparation errors will result in a delay in payment. Contractors may call (850) 413-7269 Monday through Friday to inquire about the status of payments by State Agencies. The Customer is responsible for all payments under the Contract. A Customer's failure to pay, or delay in payment, shall not constitute a breach of the Contract and shall not relieve the Contractor of its obligations to the Department or to other Customers.

#### 4.16 Taxes

The State does not pay Federal excise or sales taxes on direct purchases of tangible personal property. The State will not pay for any personal property taxes levied on the Contractor or for any taxes levied on employees' wages. Any exceptions to this paragraph shall be explicitly noted by the Customer in the special contract conditions section of the solicitation or in the Contract or purchase order.

#### 4.17 Governmental Restrictions

If the Contractor believes that any governmental restrictions have been imposed that require alteration of the material, quality, workmanship or performance of the products offered under the Contract, the Contractor shall immediately notify the Customer in writing, indicating the specific restriction. The Customer reserves the right and the complete discretion to accept any such alteration or to cancel the Contract at no further expense to the Customer.

#### **4.18 Lobbying and Integrity**

Customers shall ensure compliance with Section 11.062, FS and Section 216.347, FS. The Contractor shall not, in connection with this or any other agreement with the State, directly or indirectly (1) offer, confer, or agree to confer any pecuniary benefit on anyone as consideration for any State officer or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone any gratuity for the benefit of, or at the direction or request of, any State officer or employee. For purposes of clause (2), "gratuity" means any payment of more than nominal monetary value in the form of cash, travel, entertainment, gifts, meals, lodging, loans, subscriptions, advances, deposits of money, services, employment, or contracts of any kind. Upon request of the Customer's Inspector General, or other authorized State official, the Contractor shall provide any type of information the Inspector General deems relevant to the Contractor's integrity or responsibility. Such information may include, but shall not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor shall retain such records for the longer of (1) three years after the expiration of the Contract or (2) the period required by the General Records Schedules maintained by the Florida Department of State (available at: <http://dhis.dos.state.fl.us/barm/genschedules/gensched.htm>). The Contractor agrees to reimburse the State for the reasonable costs of investigation incurred by the Inspector General or other authorized State official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State which results in the suspension or debarment of the Contractor. Such costs shall include, but shall not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees. The Contractor shall not be responsible for any costs of investigations that do not result in the Contractor's suspension or debarment.

#### **4.19 Indemnification**

The Contractor shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless the State and Customers, and their officers, agents, and employees, from suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Contractor, its agents, employees, partners, or subcontractors, provided, however, that the Contractor shall not indemnify for that portion of any loss or damages proximately caused by the negligent act or omission of the State or a Customer.

Further, the Contractor shall fully indemnify, defend, and hold harmless the State and Customers from any suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret or intellectual property right, provided, however, that the foregoing obligation shall not apply to a Customer's misuse or modification of Contractor's products or a Customer's operation or use of Contractor's products in a manner not contemplated by the Contract or the purchase order. If any product is the subject of an infringement suit, or in the Contractor's opinion is likely to become the subject of such a suit, the Contractor may at its sole expense procure for the Customer the right to continue using the product or to modify it to become non-infringing. If the Contractor is not reasonably able to modify or otherwise secure the Customer the right to continue using the product, the Contractor shall remove the product and refund the Customer the amounts paid in excess of a reasonable rental for past use. The customer shall not be liable for any royalties.

The Contractor's obligations under the preceding two paragraphs with respect to any legal action are contingent upon the State or Customer giving the Contractor (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Contractor's sole expense, and (3) assistance in defending the action at Contractor's sole expense. The Contractor shall not be liable for any cost, expense, or compromise incurred or made by the State or Customer in any legal action without the Contractor's prior written consent, which shall not be unreasonably withheld.

#### **4.20 Limitation of Liability**

For all claims against the Contractor under any contract or purchase order, and regardless of the basis on which the claim is made, the Contractor's liability under a contract or purchase order for direct damages shall be

limited to the greater of \$100,000, the dollar amount of the contract or purchase order, or two times the charges rendered by the Contractor under the purchase order. This limitation shall not apply to claims arising under the Indemnity paragraph contain in this agreement.

Unless otherwise specifically enumerated in the Contract or in the purchase order, no party shall be liable to another for special, indirect, punitive, or consequential damages, including lost data or records (unless the contract or purchase order requires the Contractor to back-up data or records), even if the party has been advised that such damages are possible. No party shall be liable for lost profits, lost revenue, or lost institutional operating savings. The State and Customer may, in addition to other remedies available to them at law or equity and upon notice to the Contractor, retain such monies from amounts due Contractor as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them. The State may set off any liability or other obligation of the Contractor or its affiliates to the State against any payments due the Contractor under any contract with the State.

#### **4.21 Suspension of Work**

The Customer may in its sole discretion suspend any or all activities under the Contract or purchase order, at any time, when in the best interests of the State to do so. The Customer shall provide the Contractor written notice outlining the particulars of suspension. Examples of the reason for suspension include, but are not limited to, budgetary constraints, declaration of emergency, or other such circumstances. After receiving a suspension notice, the Contractor shall comply with the notice and shall not accept any purchase orders. Within ninety days, or any longer period agreed to by the Contractor, the Customer shall either (1) issue a notice authorizing resumption of work, at which time activity shall resume, or (2) terminate the Contract or purchase order. Suspension of work shall not entitle the Contractor to any additional compensation.

#### **4.22 Termination for Convenience**

The Customer, by written notice to the Contractor, may terminate the Contract in whole or in part when the Customer determines in its sole discretion that it is in the State's interest to do so. The Contractor shall not furnish any product after it receives the notice of termination, except as necessary to complete the continued portion of the Contract, if any. The Contractor shall not be entitled to recover any cancellation charges or lost profits.

#### **4.23 Termination for Cause**

The Customer may terminate the Contract if the Contractor fails to (1) deliver the product within the time specified in the Contract or any extension, (2) maintain adequate progress, thus endangering performance of the Contract, (3) honor any term of the Contract, or (4) abide by any statutory, regulatory, or licensing requirement. Rule 60A-1.006(3), F.A.C., governs the procedure and consequences of default. The Contractor shall continue work on any work not terminated. Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the Contract arises from events completely beyond the control, and without the fault or negligence, of the Contractor. If the failure to perform is caused by the default of a subcontractor at any tier, and if the cause of the default is completely beyond the control of both the Contractor and the subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted products were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule. If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued for the convenience of the Customer. The rights and remedies of the Customer in this clause are in addition to any other rights and remedies provided by law or under the Contract.

#### **4.24 Force Majeure, Notice of Delay, and No Damages for Delay**

The Contractor shall not be responsible for delay resulting from its failure to perform if neither the fault nor the negligence of the Contractor or its employees or agents contributed to the delay and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Contractor's control, or for any of the foregoing that affect subcontractors or suppliers if no alternate source of supply is available to the Contractor. In case of any delay the Contractor believes is excusable, the Contractor shall notify the Customer in writing of the delay or potential delay and describe the cause of the delay either (1) within ten (10) days after the cause that creates or will create the delay first arose, if the Contractor could reasonably foresee that a delay could occur as a result, or (2) if delay is not reasonably foreseeable, within five (5) days after the date the Contractor first had reason to believe that a delay could result. **THE FOREGOING SHALL CONSTITUTE THE CONTRACTOR'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY.** Providing notice in strict accordance with this paragraph is a condition precedent to such remedy. No claim for damages, other than for an extension of time, shall be asserted against the Customer. The Contractor shall not be entitled to an increase in the Contract price or payment of any kind from the Customer for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this paragraph, after the causes have ceased to exist the Contractor shall perform at no increased cost, unless the Customer determines, in its sole discretion, that the delay will significantly impair the value of the Contract to the State or to Customers, in which case the Customer may (1) accept allocated performance or deliveries from the Contractor, provided that the Contractor grants preferential treatment to Customers with respect to products subjected to allocation, or (2) purchase from other sources (without recourse to and by the Contractor for the related costs and expenses) to replace all or part of the products that are the subject of the delay, which purchases may be deducted from the Contract quantity, or (3) terminate the Contract in whole or in part.

#### **4.25 Changes**

The Customer may unilaterally require, by written order, changes altering, adding to, or deducting from the Contract specifications, provided that such changes are within the general scope of the Contract. The Customer may make an equitable adjustment in the Contract price or delivery date if the change affects the cost or time of performance. Such equitable adjustments require the written consent of the Contractor, which shall not be unreasonably withheld. If unusual quantity requirements arise, the Customer may solicit separate bids to satisfy them.

#### **4.26 Renewal**

Upon mutual agreement, the Customer and the Contractor may renew the Contract, in whole or in part, for a period that may not exceed 3 years or the term of the contract, whichever period is longer. Any renewal shall specify the renewal price, as set forth in the solicitation response. The renewal must be in writing and signed by both parties, and is contingent upon satisfactory performance evaluations and subject to availability of funds.

#### **4.27 Purchase Order Duration**

Purchase orders issued pursuant to a state term or agency contract must be received by the Contractor no later than close of business on the last day of the contract's term to be considered timely. The Contractor is obliged to fill those orders in accordance with the contract's terms and conditions. Purchase orders received by the contractor after close of business on the last day of the state term or agency contract's term shall be considered void.

Purchase orders for a one-time delivery of commodities or performance of contractual services shall be valid through the performance by the Contractor, and all terms and conditions of the state term or agency contract shall apply to the single delivery/performance, and shall survive the termination of the Contract.

Contractors are required to accept purchase orders specifying delivery schedules exceeding the contracted schedule even when such extended delivery will occur after expiration of the state term or agency contract. For example, if a state term contract calls for delivery 30 days after receipt of order (ARO), and an order specifies delivery will occur both in excess of 30 days ARO and after expiration of the state term contract, the Contractor will accept the order. However, if the Contractor expressly and in writing notifies the ordering office within ten (10) calendar days of receipt of the purchase order that Contractor will not accept the extended delivery terms beyond the expiration of the state term contract, then the purchase order will either be amended in writing by the ordering entity within ten (10) calendar days of receipt of the contractor's notice to reflect the state term contract delivery schedule, or it shall be considered withdrawn.

The duration of purchase orders for recurring deliveries of commodities or performance of services shall not exceed the expiration of the state term or agency contract by more than twelve months. However, if an extended pricing plan offered in the state term or agency contract is selected by the ordering entity, the contract terms on pricing plans and renewals shall govern the maximum duration of purchase orders reflecting such pricing plans and renewals.

Timely purchase orders shall be valid through their specified term and performance by the Contractor, and all terms and conditions of the state term or agency contract shall apply to the recurring delivery/performance as provided herein, and shall survive the termination of the Contract.

Ordering offices shall not renew a purchase order issued pursuant to a state term or agency contract if the underlying contract expires prior to the effective date of the renewal.

#### **4.28 Advertising**

Subject to Chapter 119, Florida Statutes, the Contractor shall not publicly disseminate any information concerning the Contract without prior written approval from the Customer, including, but not limited to mentioning the Contract in a press release or other promotional material, identifying the Customer or the State as a reference, or otherwise linking the Contractor's name and either a description of the Contract or the name of the State or the Customer in any material published, either in print or electronically, to any entity that is not a party to Contract, except potential or actual authorized distributors, dealers, resellers, or service representative.

#### **4.29 Assignment**

The Contractor shall not sell, assign or transfer any of its rights, duties or obligations under the Contract, or under any purchase order issued pursuant to the Contract, without the prior written consent of the Customer. In the event of any assignment, the Contractor remains secondarily liable for performance of the contract, unless the Customer expressly waives such secondary liability. The Customer may assign the Contract with prior written notice to Contractor of its intent to do so.

#### **4.30 Antitrust Assignment**

The Contractor and the State of Florida recognize that in actual economic practice, overcharges resulting from antitrust violations are in fact usually borne by the State of Florida. Therefore, the contractor hereby assigns to the State of Florida any and all claims for such overcharges as to goods, materials or services purchased in connection with the Contract.

#### **4.31 Dispute Resolution**

Any dispute concerning performance of the Contract shall be decided by the Customer's designated contract manager, who shall reduce the decision to writing and serve a copy on the Contractor. The decision shall be final and conclusive unless within twenty one (21) days from the date of receipt, the Contractor files with the Customer a petition for administrative hearing. The Customer's decision on the petition shall be final, subject to the Contractor's right to review pursuant to Chapter 120 of the Florida Statutes. Exhaustion of administrative remedies is an absolute condition precedent to the Contractor's ability to pursue any other form of dispute resolution; provided, however, that the parties may employ the alternative dispute resolution procedures outlined in Chapter 120.

Without limiting the foregoing, the exclusive venue of any legal or equitable action that arises out of or relates to the Contract shall be the appropriate state court in Leon County, Florida; in any such action, Florida law shall apply and the parties waive any right to jury trial.

#### **4.32 Employees, Subcontractors, and Agents**

All Contractor employees, subcontractors, or agents performing work under the Contract shall be properly trained technicians who meet or exceed any specified training qualifications. Upon request, Contractor shall furnish a copy of technical certification or other proof of qualification. All employees, subcontractors, or agents performing work under the Contract must comply with all security and administrative requirements of the Customer and shall comply with all controlling laws and regulations relevant to the services they are providing under the Contract. The State may conduct, and the Contractor shall cooperate in, a security background check or otherwise assess any employee, subcontractor, or agent furnished by the Contractor. The State may refuse access to, or require replacement of, any personnel for cause, including, but not limited to, technical or training qualifications, quality of work, change in security status, or non-compliance with a Customer's security or other requirements. Such approval shall not relieve the Contractor of its obligation to perform all work in compliance with the Contract. The State may reject and bar from any facility for cause any of the Contractor's employees, subcontractors, or agents.

#### **4.33 Security and Confidentiality**

The Contractor shall comply fully with all security procedures of the United States, State of Florida and Customer in performance of the Contract. The Contractor shall not divulge to third parties any confidential information obtained by the Contractor or its agents, distributors, resellers, subcontractors, officers or employees in the course of performing Contract work, including, but not limited to, security procedures, business operations information, or commercial proprietary information in the possession of the State or Customer. The Contractor shall not be required to keep confidential information or material that is publicly available through no fault of the Contractor, material that the Contractor developed independently without relying on the State's or Customer's confidential information, or material that is otherwise obtainable under State law as a public record. To insure confidentiality, the Contractor shall take appropriate steps as to its personnel, agents, and subcontractors. The warranties of this paragraph shall survive the Contract.

#### **4.34 Contractor Employees, Subcontractors, and Other Agents**

The Customer and the State shall take all actions necessary to ensure that Contractor's employees, subcontractors and other agents are not employees of the State of Florida. Such actions include, but are not limited to, ensuring that Contractor's employees, subcontractors, and other agents receive benefits and necessary insurance (health, workers' compensations, and unemployment) from an employer other than the State of Florida.

#### **4.35 Insurance Requirements**

No oral agreements or representations shall be valid or binding upon the Customer or the Contractor. No alteration or modification of the Contract terms, including substitution of product, shall be valid or binding against the Customer. The Contractor may not unilaterally modify the terms of the Contract by affixing additional terms to product upon delivery (e.g., attachment or inclusion of standard preprinted forms, product literature, "shrink wrap" terms accompanying or affixed to a product, whether written or electronic) or by incorporating such terms onto the Contractor's order or fiscal forms or other documents forwarded by the Contractor for payment. The Customer's acceptance of product or processing of documentation on forms furnished by the Contractor for approval or payment shall not constitute acceptance of the proposed modification to terms and conditions.

#### **4.43 Cooperative Purchasing**

#### **4.44 Waiver**

The delay or failure by the Customer to exercise or enforce any of its rights under this Contract shall not constitute or be deemed a waiver of the Customer's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

**5.1 Definitions**

The definitions found in the General Contract Conditions, Section 4.0 of this document, shall apply to this Section. The following additional terms are also defined:

- a. "MSRP" is an acronym for the Manufacturer's Suggested Retail Price. It represents the manufacturer's recommended retail selling price for a specific item, or list of items, and must be publicly listed, available, and verifiable by the Department. In the event a Vendor does not create, maintain, or utilize MSRP for specific Commodities within this solicitation, that Vendor may use its Government Book Price as the MSRP for those specific Commodities. The Vendor must use the MSRP or Government Book Price for all items within a specific Commodity and shall not use both within the same Commodity.
- b. "Government Book Price" represents the manufacturer's pre-determined selling price for a specific item, or list of items, to all non-Contracted government entities.

**5.2 Electronic Catalog Data**

The MyFloridaMarketPlace ("MFMP") third-party Service Provider, Accenture, is responsible for converting the Contract catalog information into an electronic catalog format supported by the eProcurement System. To accomplish this conversion, the awarded Contractor shall provide certain information in electronic format directly to the Service Provider (This format is generally Microsoft Excel), or alternatively, the Contractor may follow the "punchout" solution described herein.

Within ten (10) days of written notice from the Service Provider, the awarded Contractor shall provide all information necessary to facilitate electronic purchases from this Contract. Such information may include, but is not limited to, Contractor name, brand/manufacturer, SKU, product name, brief description (for supplies, include what machine product is for), unit of measure, and price. Contractor shall provide this information in the format required by the Service Provider. No costs or expenses associated with providing this information shall be charged to the Department, Eligible Users, or Service Provider. With the Contractor's timely assistance, the Service Provider shall create and maintain web-based placement of the requested Contract information.

The Contractor is required to provide its catalog data electronically using the State's eProcurement system either through the Electronic Catalog or Punchout Alternative option. After the Contract has been awarded, the

Contractor will have up to thirty (30) days to either (a) load data into the ARAVO electronic catalog system or (b) establish a State Contract punchout website.

### **5.3 “Punchout” Alternative**

The Contractor may offer, as an alternative to the Electronic Catalog, an online “punchout” solution, in which the Agency accesses the Contractor’s website directly from the system, rather than the system maintaining the Contractor’s data. This solution must allow the Agency to reach the Contractor’s site, browse for Contracted items only, and return to the system with a list of items ready to be inserted into a requisition. If Contractor selects this alternative, it must meet the following requirements:

- The solution must conform to cXML 1.0 or 1.1 standards.
- The solution must conform to the technical specifications and implementation requirements provided by Accenture, and the Contractor must work with Accenture to ensure successful integration of the punchout solution into the system
- The solution must have the capability to provide only those products awarded under the Contract, and block any non-Contract item(s) from being added to the requisition.

### **5.4 Contractor’s State Contract Webpage**

The Contract resulting from this solicitation will become a public document. State Purchasing is using <http://myflorida.com> on the Internet World Wide Web (www) to distribute State Term Contracts and product information to eligible users and other interested entities.

For the “Punchout” alternative option, the Contractor shall, within thirty (30) days after the date of award listed on the Certification of Contract document, develop and maintain a State Contract web page on the Internet to post approved Contract information, which shall include price lists, percentage discounts, terms, catalogs, ordering instructions, descriptive information, and product pictures. The Home Page must be compatible with the most recent version of browser software being used by State Purchasing. As of the writing of this solicitation, Internet Explorer 6.0 is the State Purchasing browser standard. State Purchasing intends to upgrade to new browser versions as they become available and fully tested, at its discretion. The Universal Resource Locator (URL) for the Internet Home Page must be listed in the space provided on the Ordering Instructions page of the solicitation. No costs or expenses associated with providing this information shall be charged to the State.

The State Contract vendor supplied web site must have the following requirements:

- State of Florida approved Contract price list;
- Detailed item descriptions, model numbers, unit of measure;
- Robust search engine capabilities;
- Additional links or information to access product literature of awarded items;
- Additional links to the vendor’s home page, the history of the company, etc.;
- Additional links to access technical product literature of awarded items;
- Servicing dealers with current contact information;
- Offer as many photos as possible of awarded products;
- When possible, provide indicators of recycled product and minority manufactured products; and
- Universal Resource Locator (URL) for the Internet Page must be supplied to the Department prior to the implementation of the Contract.

No changes in items and pricing may be posted to the Contractor maintained website without prior written approval from State Purchasing. Failure to follow this critical requirement may be grounds for termination and removal from the Contract.

In addition, except in the event of unforeseen technological interruptions or forces of nature, continued disruption of service or inadequate access may be grounds for termination and removal from the Contract.

## **5.5 Contract Revisions**

Although the Contractor is responsible for maintaining its own Contract information through its State Contract Web Page, any revisions to the originally approved Contract information must be authorized in writing by State Purchasing prior to implementation. A State Contract Change Form (Attachment L) is included in Section 7.0, Forms, of this document and should be submitted with any request to revise the website; i.e. pricing, products, ordering instructions, or servicing dealers list. Upon review to the Contractor's State Contract web page, should unauthorized information be discovered within the site, the Contract link may be immediately suspended until the information is appropriately revised or the Contract may be canceled due to non-compliance.

## **5.6 Product Additions and Deletions**

The awarded Contractor may amend the Contract Price Sheet to add or delete line items to accommodate new or obsolete items to its catalog two (2) times per year (January and July) with the prior written approval of the Department. Any proposed product additions shall be offered at the Contracted percentage discount from the manufacturer's current MSRP and verifiable at the time of the requested addition. Additionally, the Prices for new items, per line item, shall not exceed the current Manufacturer's current MSRP or Government Book Price. Any proposed product additions offered shall satisfy all criteria specified in the solicitation documents and the terms of the Contract.

The Contractor shall advise the Department of a request for Product Additions / Deletions in writing and received by the Department no later than thirty (30) days prior to the effective date of the proposed change(s) in the Contract Price Sheet content. No changes to the Contract Price Sheet are permitted without the prior written approval of the Department. The Department may, in its sole discretion, prohibit any requested change or direct a Contractor to undo any change already made. In addition, the Department may direct rescission of any purchase order entered into on the basis of unauthorized lists. Changes to the Contract Price Sheet or to related information (e.g., ordering information) shall not be deemed Contract amendments.

## **5.7 Transaction Fee Report**

The Contractor is required to submit monthly Transaction Fee Reports in electronic format in association with 1% Transaction Fee outlined in Section 4.15. For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and Vendor training presentations available online at the Transaction Fee Reporting and Vendor Training subsections under Vendors on the MyFloridaMarketPlace website (located at <http://dms.myflorida.com/mfmp>). Assistance is also available with the Transaction Fee Reporting System from the MyFloridaMarketPlace Customer Service Desk at [feeprocessing@myfloridamarketplace.com](mailto:feeprocessing@myfloridamarketplace.com) or 866-FLA-EPRO (866-352-3776) between the hours of 8:00 AM to 5:30 PM Eastern Time.

## **5.8 Price Adjustments**

Prices shall be firm against increase for twelve (12) months from the original effective date of the Contract. After this period, requests for increase or decrease may be submitted to the State if there has been, or is, a documented increase (or decrease) in cost, with the State reserving the right to accept or reject request within thirty (30) days after the receipt of request. Price increase or decrease may be requested by either party one (1) time per year, ninety (90) days prior to the Contract anniversary date by using the Producer Price Index (PPI) for Industry: Laboratory Apparatus & Furniture, as published by the U.S. Bureau of Labor Statistics. The rate adjustments will be based on the PPI (Series ID PCU339111339111).

The last published non-preliminary Producer Price Index for the month prior to award / anniversary date of the Contract will be the reference date for the beginning (old) PPI Index. The most recent published Producer Price Index prior to the Contract year to be priced will establish the reference data for the New PPI Index.

The price escalation / de-escalation formula will be tied to the change in the commodity for Laboratory Apparatus & Furniture, PPI Series ID PCU339111339111. The formula is calculated by dividing the New PPI Index by the Old PPI Index to identify the Price Escalation Rate. The Old Price is multiplied by the Price Escalation Rate to determine the New Price. This formula applies after Year 1 of the Contract and on each subsequent anniversary of the Contract effective date.

Details on how this PPI has historically performed can be found at the Bureau of Labor Statistics web site and following the below steps:

- Go to BLS website: <http://www.bls.gov/ppi/>
- Navigate to the "Get Detailed PPI Statistics" section
- Select "Create Customized Tables (one table)"
- Click on the link titled "Industry Data"
- Type "339111" in the "Select An Industry" box for the Laboratory Apparatus & Furniture category and hit the adjacent "Find" button.
- Select "339111339111" for Laboratory Apparatus & Furniture in the "Select One or More Products" box and hit the adjacent "Find" button.

A table similar to the one shown below will be created.

**Example:**

Feb 2004 is the first year anniversary of the Contract

Old PPI: Jan 2004 PPI = 138.9

New PPI: Jan 2005 PPI = 145.9

Price Escalation / De-escalation Formula:

New PPI / Old PPI = Price Escalation Rate

“Old Price” x “Price Escalation Rate” = New Price (rounded up to the nearest %)

Calculation:

145.9 ÷ 138.9 = 1.0503959 which equates to a Price Escalation Rate of 5.03%

\$50.00 (unit price) x 1.0503959 = \$52.51 (New unit price for this product)

Any increases accepted during the term of the Contract shall not become effective until thirty (30) days after the State provides written approval of request. All requests for price adjustments must be substantiated by manufacturer's certification of cost or other documentation and approved by State prior to implementation. There can only be one rate adjustment per twelve (12) month period, and the maximum net rate percentage increase or decrease per twelve (12) month period shall not exceed (five) 5.0%.

Failure to provide quarterly and annual sales reports, including no sales, within thirty (30) calendar days following the end of each quarter (January, April, July and October) and/or Contract year may result in the Contract supplier being found in default and cancellation of the Contract by State Purchasing.
