**ZONING-IN-PROGRESS IN EFFECT FOR ALL PARKING VARIANCES
BEGINNING NOVEMBER 6, 2013**

The Key West City Commission adopted Ordinance No. 13-20 invoking a Zoning-in-Progress declaration for all parking variances beginning on November 6, 2013. The City of Key West is considering amendments to its Land Development Regulations (“LDRs”) to reduce the need for parking variances.

No new applications for parking variances of any kind will be accepted or processed until new or amended LDRs are adopted by the City Commission, or for up to 360 days (until November 1, 2014), whichever occurs first.

Complete applications for parking variances submitted prior to November 6, 2013 will be processed normally according to the current adopted LDRs.
