In the 2016/2017 fiscal year budget, the City Commission approved funds for design and permitting of the 10th Street Pocket Park between Harris Avenue and Lucy Lane. The design will consist of and permit for the construction of a boardwalk, repairs /replacement of an existing boat ramp and new sidewalk. Key to the Caribbean - Average yearly temperature 77 ° F.

FINANCIAL IMPACT:

Permitting and design of the 10th Street Pocket Park is fully funded under budget account 101-7201-572-6300 (IS72011701). Upon Commission approval, a purchase order in the amount of \$27,942.00 will be issued to Stantec for concept design and permitting. Staff considers the labor category and the proposed number of proposed hours fair and reasonable.

Attention: Janet Muccino, Project Manager

Dear Ms. Muccino,

We are pleased to present this proposal of professional engineering and surveying services for your consideration.

Scope of Project:

The City of Key West would like to construct improvements at 10th Street Lake. Our scope is based on the attached layout provided by the City. The improvements include a new 5' wide boardwalk, repairs/replacement of a 10' wide concrete boat ramp, and a new sidewalk on the west side of 10th Street. We anticipate construction curb and gutter running alongside the sidewalk. The boardwalk will be designed to avoid all existing mangroves, thus simplifying the permitting process. All improvements must remain outside an adjacent parcel to the southwest which is not owned by the City.

Scope of Services:

Conceptual Phase:

During the conceptual phase we will review and revise the conceptual phase provided to us by the City to reflect the desired improvements, provide an estimate of probable costs, permitting summary, impacts, and estimated permit fees. We will also review possible phasing of the work in order to simplify certain portions of the project. We will attend a City commission meeting to discuss our findings if required.

Preliminary Design and Permitting Phase:

For this task, we will prepare basic drawings for permitting purposes. The drawings will not be construction documents but will be prepared in enough detail to obtain the required environmental permits. Our scope includes obtaining an updated boundary and topographic survey (see attached proposal), developing a geometry layout plan, and basic grading and drainage plan. No structural plans or details are included. Drainage may include connections to existing drainage or sheet flow into the lake. Geotechnical investigate is not included. No irrigation or lighting/electrical design is included in our scope. We have also included 1 site visit to review the design plans in the field.

We will also prepare an estimate of probable construction costs, and submit/obtain stormwater permitting through FDEP. Environmental permits will also be completed and submitted on behalf of the City (see attached proposal). It should be noted that the timeline for federal permits is out of our control and we have experienced slow review and permit approvals in the past.

Preliminary Design & Permitting Phase (Lump Sum).....	\$15,692
Reimbursable and Additional Services (Allowance).....	\$7,500
Total:.....	\$27,942

Permit fees can be paid by Stantec and reimbursed under the allowance phase noted above.

We are ready to begin working on this assignment upon your authorization to proceed. If acceptable to you, we will accept a signed copy of this form as your written authorization to proceed with the assignment.

- 4.5. In the event Contractor fails to substantially complete the Task Order on or before the substantial completion date specified in its agreement with CITY, and the failure to substantially complete is caused in whole or in part by a negligent act, error or omission of CONSULTANT, then CONSULTANT shall pay to CITY its proportional share of any claim or damages to Contractor or CITY arising out of the delay.
