When permitted to qualify as a home occupation, a use must demonstrate compliance with each and all of the following criteria:
 - a. No person other than the members of the family residing on the premises shall be engaged in such occupation. No persons other than permanent residents of the subject premises shall be engaged in such occupation.
 - b. There shall be no display of goods visible from any street.
 - c. There shall be no change in the outside appearance of the building or premises or other visible evidence of the conduct of such home occupation from any right-of-way, except that a nonilluminated nameplate, not exceeding two square feet in area, may be displayed providing the nameplate is affixed against the exterior surface at a position not more than two feet from the main entrance to the residence.
 - d. No home occupation shall occupy more than 20 percent of the total living area of the residence, exclusive of the area of any open porch or attached garage or similar space not suited for or intended for occupancy as living quarters. No rooms which have been constructed as an addition to the residence, nor any attached garage or porch which has been converted into living quarters, shall be considered as floor area until two years after the date of completion thereof.
 - e. No home occupation shall be conducted in an accessory building; such occupation must be conducted in the principal of the proprietor.
 - f. No motorized power other than electric motors shall be used in conjunction with home occupations. The total horsepower of such motors shall not exceed three horsepower, or one horsepower for any single motor.
 - g. No equipment or process shall be used in such home occupation which creates noise, vibration, glare, fumes, odors, or electrical interference detectable to the normal senses off the lot, if the occupation is conducted in a single-family residence, or outside the dwelling unit, if conducted in other than a single-family residence. For electrical interference, no equipment or process shall be used which creates a visual or audible interference in any radio or television receivers off the premises or causes fluctuations in line voltage off the premises.
 - h. No occupation shall generate traffic exceeding volumes normally expected in a residential neighborhood. Occupations which rely on client contact at the premises are not permitted.
